C.1.5	Indicate whether the company has diversity policies in relation to the company's board of directors with respect to issues such
	as age, gender, disability, or professional training and experience. Small and medium-sized entities, in accordance with the
	definition contained in the Spanish Audit Act (Ley de Auditoría de Cuentas), will have to report, at a minimum, on the policy
	they have established in relation to gender diversity.

[]	Yes
[]	No
[√]	Partial policies

If yes, describe these diversity policies, their objectives, the measures and how they have been implemented, as well as their results for the year. The specific measures adopted by the Board of Directors and the Appointments and Remuneration Committee to achieve a balanced and diverse presence of directors must also be indicated.

If the company does not implement a diversity policy, explain the reasons why it does not do so.

Description of policies, objectives, measures and the way in which they have been applied, as well as the results obtained.

Pursuant to Article 14.7.g of the Board of Directors Regulations, the Appointments and Remuneration Committee has to inform the board about diversity and gender-related issues. It may suggest to the board of directors the appointment of one or several female directors to bring before the General Shareholders Meeting. The director recruitment procedure is not affected by any kind of bias which may hinder or obstruct the election of women as members of the Board of Directors. The Board of Directors currently has two female directors (one proprietary and one independent), representing 40% of the total number of Board members.

The Company does not have diversity policies in place in relation to the Board of Directors of the company with regard to matters such as age or disability, but circumstances of this nature may not be an exclusive reason for ruling out possible candidates who might be able to join the Board of Directors.

affected by any implicit biases against selecting female directors and to make sure that the company deliberately seeks
to include, among potential candidates, women who meet the professional profile required, allowing a balanced
presence of women and men to be achieved:

Explanation of the measures

See Section C.1.5. above.

Where the number of female directors is few or none, despite the measures taken, if any, explain the reasons to justify this fact:

Explanation of the reasons

As previously stated, the number of female directors currently represents 40% of the total number of board members.

Explain the conclusions of the appointments committee regarding the verification of compliance with the policy on director selection. In particular, explain how this policy promotes the objective that by 2020 the number of female directors is at least 30% of the total number of members of the board of directors.

The Company currently has no approved director selection policy. However, the procedures to select directors favour gender diversity in accordance with the provisions of article 529 bis of the Spanish Corporate Enterprises Act and are therefore aligned with the goal that in 2020 the number of female directors will represent at least 30% of the total number of directors. In this regard, at the end of 2019, 40% of the Company's directors were already female.

	appointment of the director(s) who are to hold such offices shall require a vote in favour from two-thirds of the board members to be effective and shall not enter into effect until it is duly registered at the Companies Registry. Under no circumstances may the purpose of such delegation be accountability or the bringing of balances before the General Meeting, nor may the powers that the latter may confer upon the board be delegated, unless expressly authorised by it. In accordance with Article 4.3 of the Board Regulations, the board of directors shall hold responsibility for all the powers which cannot be delegated and are legally reserved for its deliberation, as well as any others that are necessary to responsibly exercise its general oversight duty. It may delegate the remaining powers to one or several Chief Executive Officers. At the board meeting held on 26 April 2018, it was agreed to re-appoint Marco Colomer Barrigón as the Company's Chief Executive Officer, to whom all the powers of the board of directors were delegated, with the exception of those that cannot be delegated by law.

C.1.16 State the procedures used to select, appoint, re-elect and remove board members. Name the competent bodies, the procedures to be followed and the criteria used in each procedure.

Selection:

The Board of Directors and the Appointments and Remuneration Committee, within the scope of their responsibilities, strive to ensure that candidates of renowned solvency, competence and experience are chosen, taking particular care in the case of independent directors. In this sense, the Appointments and Remuneration Committee is responsible for assessing the skills, knowledge and experience required on the Board of Directors in order to define the skills and capabilities required by candidates to cover each vacancy, and to assess the time and dedication required to properly carry out their duties.

Appointment:

Being a shareholder is not a requirement for appointment to the board and both natural and legal persons may be members, though in the latter case a natural person must be appointed to represent the legal person and to hold office. People who have been legally disqualified may not be directors; nor may those who have been declared incompatible according to legislation on senior executives and other specific general or regional provisions.

Directors are appointed by the General Shareholders' Meeting or, in the event of co-opted nomination to cover vacancies, by the Board of Directors according to the provisions set forth in applicable law.

Proposals for the appointment of independent directors are made by the Appointments and Remuneration Committee. Any proposals for the appointment of non-independent directors the board brings before the General Meeting for its deliberation and any appointment decisions the board adopts by virtue of the powers of co-option legally attributed to it shall be preceded by the relevant non-binding report issued by the Appointments and Remuneration Committee. Should the board reject the recommendations made by the Appointments and Remuneration Committee, it shall state the reasons thereof and record its reasons in the minutes of the meeting.

Re-election:

Directors hold office for a term of four years and may be re-elected once or more times for periods of equivalent duration. Once the term has expired, the appointment shall expire when the following General Meeting is held or the legal time limit for holding the General Shareholders' Meeting which has to resolve on the application of the previous year's accounts has elapsed.

Any proposals for the reappointment of directors which the board of directors decides to bring before the General Shareholders' Meeting should have been previously reported on by the Appointments and Remuneration Committee, which shall assess in its recommendation the quality of the work and the dedication to the office during their mandate. Likewise, the board of directors ensures that any independent directors who are re-elected do not remain on the same committee, except where the tasks in progress or other reasons suggest they should continue on the same committee.

Assessment:

Annually, the Board of Directors carries out an assessment of its functioning and that of its committees. Based on the outcome of this assessment, the Board of Directors proposes an action plan aimed at correcting the deficiencies detected.

Removal:

Directors leave office once the term for which they were appointed has elapsed, where they tender their resignation to the Company or where the General Shareholders' Meeting so decides, in exercise of the powers conferred on it, either by law or by the Articles of Association. Directors place their office at the disposal of the board of directors and tender their resignation, where the board may see fit, in any of the following circumstances:

- a) where they stand down from executive offices linked to their appointment as a director;
- b) where they are involved in any of the circumstances of incompatibility or legal prohibition laid down;
- c) where they are issued a serious admonishment by the Audit and Compliance Committee for having failed to fulfil their obligations as a director; and
- d) where their remaining on the board may place the company's interests at risk or negatively affect its good standing and reputation or where the reasons why they were appointed cease to exist (for example, when a proprietary director sells his interest in the company).

Where, due to resignation or for other reasons, a director relinquishes office before the end of their term of office, they should explain the reasons in a letter sent to every member of the Board of Directors, notice of which should be given as a relevant fact and explained in the Annual Corporate Governance Report.

C.1.17 Explain how far the annual assessment of the board has led to important changes in its internal organisation, and on the procedures applicable to its activities:

Description of changes

The board meeting held on 25 July 2019 approved the ANNUAL ASSESSMENT OF THE PERFORMANCE OF THE BOARD OF DIRECTORS, ITS AUDIT COMMITTEE AND THE APPOINTMENTS AND COMPENSATION COMMITTEE, produced by the Appointments and Compensation Committee at the Company, concluding that the board of directors operates in an appropriate and efficient manner, pursuant to the provisions of the Articles of Association and the General Meeting's own regulations. Furthermore, it concluded that during 2018, the members of the board of directors performed their duties with diligence and loyalty to the company's corporate interests, without proposing the adoption of any corrective measure, as no deficiency was identified in the Board's performance.

Describe the assessment process and the areas evaluated carried out by the board of directors, aided where appropriate by an external consultant, with respect to the operation and composition of the board and its committees and any other area or aspect that has been subject to evaluation.

Description of the assessment process and areas evaluated

The process to assess the Board of Directors, its Committees and its Chairman and Chief Executive Officer for 2018 was overseen by the Appointments and Compensation Committee. This process concluded with the Board of Director's approving the assessment's results in its meeting of 25 July 2019.

The main areas assessed were the following:

- The composition, meetings, functioning and most relevant agreements of the Board of Directors;
- · Attendance of directors to Board meetings;
- · Relationship of the Board of Directors with its committees;
- ullet Performance of the Board Chairman and Chief Executive Officer, as well as the Secretary; and
- Performance of the Board of Directors Committees.

The Board of Directors was not assisted by any external consultant in carrying out this assessment.

If so, give a brief summary of these rules.

Article 16.1 of the Board Regulations provides that directors must make every effort to attend board meetings and, when they cannot do so in person, they may delegate another director to act as their proxy. Non-executive directors may only grant proxy to another non-executive director. They shall endeavour to appoint that proxy by means of a letter addressed to the Chairman and, on an exceptional basis, to another board member, containing the relevant instructions, provided the agenda for the meeting permits it.

C.2.3 State, as applicable, whether regulations governing the board's committees exist, where they are available for consultation and any amendments that have been made to them during the year. Also state whether an annual report on the activities of each committee has been voluntarily drafted.

The Board's committees are governed by the Board of Directors' Regulations, which are available on the Company's website and notice of which has be given to the (CNMV) and duly registered at the Madrid Companies Registry pursuant to Article 529 of the Spanish Corporate Enterprises Act (L.S.C.).

The Audit Committee and Appointments and Compensation Committee modified their composition and complemented their functions (Articles 13 and 14) during 2017 to adapt to the CNMV requirement of 18 August 2017, such that all its members were non-executive directors as provided for in the Board Regulations. This amendment was approved by the board meeting held on 26 October 2017.

The board meeting held on 25 July 2019 approved the ANNUAL ASSESSMENT OF THE PERFORMANCE OF THE BOARD OF DIRECTORS, ITS AUDIT COMMITTEE AND THE APPOINTMENTS AND COMPENSATION COMMITTEE, produced by the Appointments and Compensation Committee at the Company.

D. RELATED-PARTY AND INTRAGROUP TRANSACTIONS

D.1. Explain the procedure and competent bodies, if any, to approve transactions with related parties and parties within the group.

Pursuant to Article 4.3.t) of the Board Regulations, the board of directors is responsible for:

t) The approval, subject to a report from the Audit Committee, of transactions that the company or group companies execute(s) with its directors, under the terms provided for in Articles 229 and 230, or with shareholders, either on an individual or joint basis, who retain a significant interest, including shareholders represented on the board of directors at the Company or at other Companies that form part of the same group or individuals related thereto.

The affected Directors or those representing or associated to affected shareholders must abstain from participating in the debate and vote on the agreement in question. Only transactions that simultaneously satisfy the three following conditions shall be exempt from the aforementioned approval:

- 1. Those that are carried out under agreements with standardised conditions and are applied in a general way to numerous clients;
- 2. Those that are carried out at rates or prices established on a general basis by the person acting as the supplier of the goods or service in question; and
- ${\it 3.}$ Their amount does not exceed 1% of the company's annual revenues.

Furthermore, Article 35 of the Board Regulations (Business Opportunities), establishes that:

- 1. Directors may not use the name of the Company nor cite their position as directors in order to carry out transactions on their own behalf or on behalf of parties related to them.
- 2. Directors may not make investments or carry out any transactions associated with the Company's assets, of which they have knowledge through the performance of their duties, for their own benefit or for the benefit of those related to them, when such an investment or transaction has been offered to the Company, or in which the Company has an interest, unless the Company has rejected the investment or transaction without the involvement of the director.
- D.2. List transactions which are significant for their amount or relevant due to their subject matter, carried out between the company or entities in its group and significant shareholders of the company:

E. RISK MANAGEMENT AND CONTROL SYSTEMS

E.1. Explain the scope of the company's Risk Management and Control System, including tax risks.

The main aim of internal control for the Company's board of directors is to offer a reasonable degree of security that the Company will attain its targets. In this regard, it is deemed that the Risk Management System should act to avoid any deviations from coming about with respect of the targets set and to detect such deviations as soon as possible.

To control risks inherent to its operations, the Company has established a variety of risk control and assessment systems, which is led and supervised directly by the board of directors; as set out in Article 4.3 of its Regulations, the Board is responsible for:

- supervising the effective functioning of the committees set up.
- establishing general strategies and policies of the company.
- preparing financial statements and submitting them to the General Shareholders' Meeting, decisions relating to the remuneration of directors, within the framework of the Articles of Association and, where applicable, the remuneration policy approved by the General Shareholders' Meeting.
- policy regarding treasury shares.
- approving the strategic or business plan, the yearly budget and management objectives, investment and financing policy, corporate social responsibility policy and dividend policy.
- establishing risk management and control policy, including tax policy, and supervising internal information and control systems.
- establishing the corporate governance policy for the company and the group of which it is the parent company; its organisation and functioning and, specifically, the approval or amendment of its own regulations.
- approving financial reports that the company, as a listed company, must periodically publish.
- defining the structure of the group of which the company is the parent company.
- approving investments or operations that, due to their significant value or special characteristics, are considered strategic or involve a particular tax risk, except those that are approved by the General Shareholders' Meeting.
- approving the creation or acquisition of shareholdings in special-purpose entities or those domiciled in countries or territories

regarded as tax havens, as well as any other similar transaction or operation that, due to its complexity, could undermine the transparency of the company and its group.

- approving, subject to a report submitted by the audit committee, related-party or intragroup transactions.
- establishing the company's tax strategy.

The powers which the Board performs directly and which have not been delegated to date allow it to control and oversee all of the Company's significant risks connected with:

- Investments and disposals.
- Borrowing levels for all items.
- Control and monitoring of Strategic Plans and Budget compliance.
- Investment limits on property fixed assets for renting out.

The Audit Committee's duties:

Within the scope of its responsibilities, the Audit Committee reviews the suitability and integrity of the Company's internal control systems aimed at mitigating the Company's risk exposure. Its duties include analysing, controlling and monitoring business risks.

Other executive departments involved in risk control and assessment: There are executive departments within the organisation of the Company and the Group to which it belongs that have important risk control and assessment responsibilities which follow the criteria laid down by the board of directors:

- Investment Department: This department is responsible for informing the board about any strategic decisions, investments and disposals which are relevant to the Company or the Group, as well as their suitability for the Budget and Strategic Plans before the board adopts any resolutions on them. The department currently comprises five people, one of whom is the director, who meet with the Chairman and Chief Executive Officer as often as is necessary to study all investment transactions involving real estate acquisitions, disposals, credits and loans, as well as any other relevant transactions which could involve risks to the Company's operations and solvency.
- Finance department, which provides the board with all the economic and financial reporting on a quarterly basis in order to control and assess risks. The finance department prepares and provides the audit committee with the information it requires and analyses business risk monitoring and control as part of its duty to identify them in addition to drafting the individual and consolidated Group financial statements.

- Technical Department, which oversees all building, refurbishment or corrective or preventive maintenance works carried out directly or by contracting third parties in order to ensure they are properly executed in all phases. It also supervises suppliers.
- E.2. Identify the company's bodies responsible for setting up and implementing the Risk Management and Control System:

The Risk Management System is the responsibility of the board of directors, which has delegated its supervision and maintenance responsibilities to the Audit Committee.

The finance department for the business group with which the Company is linked prepares and provides the audit committee with the information the latter requires and analyses as part of its duty to identify, control and monitor risks to the business.

E.3. Indicate the main risks, including tax risks and, insofar as they are significant, those relating to corruption (the latter being understood within the scope of Royal Decree-Law 18/2017), which may affect the achievement of business objectives:

The main risks identified by the Group in relation to the attainment of its objectives are:

RISKS SPECIFIC TO THE COMPANY AND ITS BUSINESS SECTOR

Company operations, transactions and results are subject to risks linked to the business sector in which it operates, in addition to risks specific to the Company. Risks may materialise or get worse as a result of changes in competitive, economic, political, legal, regulatory, social, business or financial conditions and, therefore, all shareholders and investors must bear them in mind.

Below are the most relevant risks that may affect the Company, divided into 2 categories:

- risks specific to the Company's business sector;
- risks specific to the Company.

A) RISKS SPECIFIC TO THE BUSINESS SECTOR

- a) Risks deriving from the cyclical nature of the real-estate business.
- b) High levels of competition in the real-estate business in Spain may affect the Company's capacity to invest appropriately.
- c) Risks inherent to the management of real estate assets.
- d) Risks deriving from the solvency and liquidity of lessees.
- e) The real-estate sector is regulated and, therefore, any substantial change to the applicable regulations may adversely affect the Company.
- f) Property investments are relatively illiquid, which could make it difficult to embark upon disinvestments.
- g) The Company may undertake divestments at an inopportune time in terms of maximising their value and could even experience losses.
- h) Any cost associated with a potential investment that ultimately remains unrealised may negatively affect the Company.
- $i) \ Due \ diligence \ undertaken \ concerning \ an \ investment \ may \ fail \ to \ detect \ all \ risks \ and \ responsibilities \ resulting \ therefrom.$
- j) In the renovation or remodelling of its properties, the Company will often rely on the actions of third parties hired and may be exposed to liability deriving from their actions.
- k) The Company may be exposed to liabilities and/or obligations in the future relating to properties sold.
- I) Any forced expropriation of a Company asset may have an adverse impact.
- m) The Company applies a wide-ranging investment policy, which may be subject to change and, therefore, the composition of the Company's asset portfolio may vary.
- n) Any investment made by the Company as part of a joint venture carries associated risks that may have an adverse impact on the Company.

B) RISKS SPECIFIC TO THE COMPANY

- a) The Company is managed externally by the management of Grupo Pryconsa and, therefore, is dependent on its capacity, experience and criteria.
- b) Concentration of the Company's investment activity in Spain.
- c) A significant part of the Company's assets are hotels and therefore, are connected to the tourism industry.
- d) Risks deriving from the indebtedness of the Company.
- e) A significant part of total invoicing from income at the Company is linked to a limited number of large customers and assets.
- f) The Company may be adversely affected by any change in tax legislation, including the Real Estate Investment Trust (REIT) system, which could negatively impact the Company.
- g) The requirements for retaining its status as a REIT may limit the capacity and flexibility of the Company to make investments or repay its debts.

- h) Some property transfers may lead to negative repercussions on the Company in accordance with the REIT system.
- i) The assessment of the Company's real estate assets portfolio may not accurately and precisely reflect their actual value.
- j) Risk of fluctuation in interest rates
- k) Inability to precisely foresee the market prices of real estate assets and rents.
- I) Risk of damage to real estate assets and losses deriving from events not covered by insurance policies.
- m) A decrease in the Company's credit rating may negatively affect it.
- n) Shareholders and Directors at the Company may experience a conflict of interest with any of the companies that form the Company or a direct or indirect significant interest in a transaction that the Company is considering.
- o) Risk of conflicts of interest in transactions with related parties.
- p) Concentration of the Company's body of shareholders in the Colomer family, which has a very significant and decisive influence thereon.
- q) Judicial and extra-judicial actions.
- r) Dependence on certain key individuals in terms of management at the Company.
- s) The Company's cash reserves may be insufficient to satisfy its obligations.
- E.4. State whether the entity has risk tolerance levels, including for tax risk.

No risk tolerance level has been established on a formal basis. Notwithstanding the size of the Company and the characteristics and manner in which it goes about its business, all investment, divestment and financing activities can be analysed on an individual basis by the board of directors and the corresponding Committees, meaning that the risk level assumed is constantly assessed by the board of directors.

E.5. State which risks, including tax risks, have had an impact over the year:

No significant risks arose in 2019.

E.6. Explain the response and oversight plans for the company's major risks, including fiscal risks, as well as the procedures that it follows to ensure that the board of directors addresses new challenges:

See sections E.1 and E.4.

F. INTERNAL RISK CONTROL AND MANAGEMENT SYSTEMS IN RELATION TO THE INTERNAL CONTROL OVER FINANCIAL REPORTING SYSTEM (ICFR)

Describe the mechanisms which comprise the company's risk control and management systems in relation to the financial reporting process (ICFR).

F.1. The company's control environment.

Report at least the following, highlighting their main features:

F.1.1 What bodies and/or areas are responsible for:(i) the existence and maintenance of an adequate and effective internal control over financial reporting system (ICFR); (ii) its implementation, and (iii) its supervision.

The Board Regulations establish, inter alia, the power of the board to set risk management and control policy, which includes the ICFR, as well as periodically monitoring internal reporting and control systems. Furthermore, the audit committee is defined as the committee and body entrusted with assisting the board of directors in its duty of supervising financial statements and the periodic disclosures made to regulatory bodies. Supervising the efficacy of the company's internal control system and supervising the process of preparing and filing mandatory financial reporting are identified as being among its responsibilities.

- F.1.2 State whether the following elements exist, especially with regard to the process of preparing financial reports:
- Departments and/or mechanisms responsible for:(i) designing and reviewing the organisational structure; (ii) clearly defining areas of responsibility and authority, with a suitable distribution of tasks and functions; and (iii) the existence of sufficient procedures for these to be properly disseminated within the entity:

The board of directors has set up a general framework to approve transactions and powers of attorney in order to ensure that all transactions are carried out with a suitable level of control designed to achieve the greatest efficiency and security for the Company's activity.

Code of conduct, body responsible for its approval, degree of dissemination and training, principles and values included therein (indicating if any specific mention is made of the booking of transactions and financial reporting), body in charge of analysing non-compliance and proposing corrective actions and penalties:

On 28 April 2016, the Board of Directors approved the Internal Securities Market Conduct Regulations created by the audit committee, in compliance with the provisions of Article 225.2 of Royal Legislative Decree 4/2015, of 23 October, approving the consolidated text of the Spanish Securities Market Act (*Ley del Mercado de Valores*: "TRLMV").

For its part, on 25 July 2019, the Board of Directors approved the new Internal Code of Conduct, adapted to the LSC as amended by RDL 19/2018, which was duly communicated to the CNMV and published on the Company's website.

The objective of the regulations is to align the behaviour of the Company, its governing bodies, employees and representatives with the rules of conduct that, in the course of activities relating to the securities market, must be complied with by the aforementioned parties.

As a listed company, it is the duty and intention of the Company (including the aforementioned parties) to act with maximum diligence and transparency in all its undertakings, reducing the risk of conflicts of interest to a minimum and ensuring, in short, proper and timely information for investors, all of the foregoing in the interests of market integrity.

Furthermore, the Company's corporate culture and values are conveyed effectively on a daily basis. Given the size of the Company, which only employs five people, this way of conveying them is perfectly adequate.

· Whistle-blowing channel, which allows financial and accounting irregularities to be reported to the audit committee, along with any possible infringements of the code of conduct and irregular activities within the organisation. State whether it is confidential, as applicable:

At the same time as the Code of Conduct is approved and published, a whistle-blowing mailbox will be set up that will be formalised through a procedure that is awaiting the board of directors' approval. That procedure will state that the whistle-blowing channel is a direct, efficient and confidential means of reporting, which allows employees or third parties (suppliers, clients, public administrations, shareholders, etc.) to report any employees, executives or directors of the Company involved in breaking the law, internal regulations or the Code of Conduct, or committing financial or accounting irregularities or any other event of a similar nature.

The procedure, which is currently in the review stage and pending approval, sets forth that reports may be submitted through two channels:

- Whistle-blowing mailbox: by using the application enabled for such purpose on the Company's website and the Intranet.
- Written reports: sent confidentially in an envelope for the attention of the audit committee members.
 - · Regular training and refresher courses on, at least, accounting standards, audits, internal control and risk management for staff involved in preparing and reviewing financial reports and evaluating the ICFR:

The finance department for the Group to which the Company is linked is continually updating internal procedures to create the ICFR at both a personal as well as at a corporate level and is in constant communication with the Group's external auditors, so that any regulatory change on this issue is identified and implemented immediately.

F.2. Financial reporting risk assessment.

Report, at least:

- F.2.1 Indicate the main features of the risk identification process, including error or fraud identification, with regard to:
- · Whether the process exists and is documented:

The Group to which the Company is related, and by which it is run, is equipped with a procedures manual which includes a specific procedure for the accounting treatment of both routine transactions and less frequent and potentially complex transactions. It covers all financial reporting aims and is updated whenever any transactions that require it are detected. The introduction of a specific real estate management ERP and the segregation of review and supervisory duties and controls relating both to the processes for generating financial information and to internal and market reporting, make it possible to ensure its reliability and integrity. Furthermore, any information which is based on judgements or estimates is specifically analysed by the Group's Finance Department with the support of independent experts or under the supervision of the Audit Committee.

· Whether the process covers all financial reporting objectives (existence and occurrence; completeness; evaluation; presentation, itemisation and comparability; and rights and obligations), whether it is updated and how often:

As part of the activities aimed at improving the ICFR, the operational control activities already in place to cover all financial reporting objectives are being documented. Hence, the risk and control matrices will include a column setting out the financial reporting objectives being covered by the control activities and another column stating whether there is a risk of fraud.

• The existence of a process to identify the consolidation perimeter, taking into account the possible existence of complex corporate structures and specific or special purpose vehicles, among other matters:

The procedures manual of the Group to which the company is related includes a section on setting and reviewing the consolidation perimeter, which is reviewed annually and whenever legislative changes affecting it come about. The scope of critical processes and transactions having a significant impact on the Company's financial statements has been analysed in the design stage of the ICFR. In order to do so, risks have been assessed, taking quantitative (materiality in financial statements and/or number of transactions) and qualitative criteria into consideration, such as error or fraud risks, the complexity of the calculations, estimates or judgements, including any relevant provisioning, accounts closure and financial reporting processes.

· Whether the process takes into account the effects of other types of risks (operational, technological, financial, legal, tax, reputational, environmental risks, etc.) and the extent to which they affect financial statements:

The scope of critical processes and transactions having a significant impact on the Company's financial statements has been analysed in the design stage of the ICFR. In order to do so, risks have been assessed, taking quantitative (materiality in financial statements and/or number of transactions) and qualitative criteria into consideration, such as error or fraud risks, the complexity of the calculations, estimates or judgements, including any relevant provisioning, accounts closure and financial reporting processes.

· Which governing body of the company supervises the process:

The audit committee in conjunction with the Group's finance department.

F.3. Control activities.

Report whether your company has at least the following, highlighting their main features:

F.3.1 Financial reporting review and authorisation procedures and a description of the ICFR for the financial reports to be published on the securities markets, indicating who is responsible for them, as well as descriptive documents on the flows of activities and controls (including those on fraud risks) for the different kinds of activities that could materially affect the financial statements, including the accounts closure process and the specific review of relevant judgements, estimates, valuations and forecasts

The Company has an accounts closure procedure, which is covered in the procedures manual. Its aim is to set out internal review and approval practices for the financial reports to be provided to the markets (including the annual accounts, quarterly and half-yearly reports, the Annual Corporate Governance Report and the Board Member Remuneration Report), which are to be carried out by the audit committee and subsequently by the board of directors.

The procedure sets out the relevance which certain judgements, estimates and forecasts subject to a greater or lesser degree of uncertainty, or the choice of certain accounting criteria, could have for financial reporting. As regards these issues, the procedures which should exist internally are covered, including those performed by the board of directors to review and approve judgements, estimates and provisions. A risk map has been created, as part of which the processes set out below were identified, since they are deemed to have a significant impact on the Group's financial reporting:

- Real Estate Investment Cycle
- Procurement and Accounts Payable Cycle
- Budget and Business Plan Cycle
- Cash Flow and Financing Cycle
- Asset Valuation Cycle
- Procurement Cycle
- Tax Cycle
- Consolidation and Reporting Cycle

It is expected that the activity and control flows that materially affect the financial statements will be described for these cycles, and risk matrices and controls summarising the risks identified and the controls implemented to mitigate them will be designed. The departments of the Company that forms part of the Group identified in the cycles will hold responsibility for abiding by the processes and for notifying any changes made to the processes that could affect the design and fulfilment of the controls identified in the processes. The risk matrices and controls will include the frequency of control activities – stating whether these are for prevention or detection purposes, manual or automatic – the financial reporting aims covered and whether fraud risks exist.

All the risk descriptions, matrices and controls will be validated by the people holding responsibility for the processes. The areas and departments identified in them will be responsible for abiding by them and for notifying any changes made to the processes that could affect the design and fulfilment of the controls identified in the processes.

The section on closing accounts in the Company's procedures manual describes the review and authorisation procedures for the financial reporting to be published on the securities markets, indicating who is responsible for it (finance department, audit committee and board of directors), its frequency (Q1, H1, Q3 and H2), the official formats of the National Securities Market Commission (CNMV) for the reporting and a description of the documents to be sent to regulators.

F.3.2 Internal control policies and procedures regarding information systems (including secure access, change tracking, operation, operational continuity and separation of duties) which support the company's processes relating to the preparation and publication of financial reports.

The Corporate Rules include two rules connected with the internal control of information systems, which are set out below:

- 1. Corporate Rule on Information System Management. This rule sets out all aspects of physical security (backup copies, server maintenance and access, contingency and disaster recovery plan), software security (access control, registration and de-registration procedure, firewalls, etc.), duty segregation policy, information record and traceability policy, privacy policy, development policy, maintenance policy (incident management and user help desk) and training.
- 2. Corporate Rule on the Spanish Data Protection Act (*Ley de Protección de Datos*: LOPD) and Media. This rule aims to set out the action framework for compliance with existing personal data protection legislation and also covers Internet and e-mail use policy, as well as security and control aspects relating to the use of IT tools provided by the Company. The security measures set out in the Rule cover both the data processing of automated or computer files and paper records.
 - F.3.3 Internal control policies and procedures aimed at supervising the management of activities outsourced to third parties, as well as any assessment, calculation or valuation aspects entrusted to independent experts, which could materially affect the financial statements.

The activities outsourced to third parties having the greatest impact on the financial statements are asset valuation processes and legal/tax contingencies. There is a specific section in the Company's procedures manual which describes the criteria and selection process for appraisers/valuation experts, lawyers/legal advisers and tax advisers. It also sets out the controls which have been put in place to assess litigation and valuation methods, as well as the monitoring, billing and accounting for these services.

F.4. Reporting and Communications.

Report whether your company has at least the following, highlighting their main features:

F.4.1 A specific area responsible for defining and updating accounting policies (accounting policy area or department) and resolving queries or conflicts arising from their interpretation, maintaining constant communication with those responsible for operations in the organisation, and an updated manual of accounting policies communicated to the units through which the entity operates.

The audit committee, in coordination with the Group's finance director, is responsible for defining and keeping the Group's accounting policies up to date, as set forth in the Company's procedures manual.

The Financial Manager is also in charge of resolving any doubts and conflicts that may arise from their interpretation with the support of the department's staff and, if needed, external experts. The Company continuously updates its accounting policies manual. The aim of the Manual is to define the criteria to be followed for drawing up separate financial statements according to the Spanish New General Accounting Plan (NPGC).

F.4.2 Mechanisms to generate and prepare financial reports with standard formats, which are being applied and used in all units of the company or group and which support the main financial statements and notes, as well as the information provided on the internal financial reporting control system (ICFR).

The Company is equipped with an Enterprise Resource Planning (ERP) system which records transactions and prepares all Group companies' financial reports. The Quality Management System includes a series of indicators that have been defined to exercise control over the finance area and to ensure the ERP system runs properly, thereby guaranteeing the integrity of financial reporting.

F.5. Supervision of the system.

Report, stating its main features, including at least:

F.5.1 The internal financial reporting control system (ICFR) supervision activities performed by the audit committee and whether the company has an internal audit function whose responsibilities cover supporting the committee in supervising the internal control system, including the ICFR. Information should also be provided on ICFR assessment during the year and the procedure whereby those responsible for the assessment report its results, whether the entity is equipped with an action plan setting out any possible corrective measures, and whether its impact on financial reporting has been taken into consideration.

In 2019, a variety of actions have continued to be carried out in connection with the ICFR, the development of relevant documents (corporate rules, risk matrices and controls, policies and procedures) and the design of the control activities needed to comply with current legislation.

Pursuant to its Regulations, the Audit Committee holds the following responsibilities:

- To oversee the process of preparing and filing mandatory financial reports.
- To oversee the efficacy of the Company's internal controls and its management systems, as well as discussing with the auditors of accounts any significant weaknesses detected in the internal control system during the performance of an audit.

In addition, the Committee held meetings with the external auditors to review and monitor these activities, as well as any weaknesses detected in them and the recommendations made by the auditors in the review of the ICFR.

F.5.2 State whether the company is equipped with a procedure whereby the auditor of accounts (in accordance with the provisions of the Technical Auditing Standards), the internal audit function and other experts can report to senior management and the audit committee or directors any significant weaknesses in internal control identified during the process of reviewing the annual accounts or any other reviews they may have been entrusted with. Likewise, state whether there is an action plan to correct or mitigate any weaknesses observed.

The Board Regulations state that the board should establish, either directly or through the audit committee, an objective, professional and ongoing relationship with the Company's external auditors appointed by the General Meeting, respect their independence and ensure that they are provided with all the necessary information. The Board Regulations establish that it is the responsibility of the audit committee to discuss any significant weaknesses detected in the internal control system during the course of the audit with the auditors. The audit committee may request additional information and request the clarifications it deems necessary in order to set its own criteria and issue its corresponding report to the Board of Directors.

For the external audit, the audit committee meets with the external auditors in January of every year to carry out a complete review of the annual accounts subject to the audit.

F.6. Other relevant information.

It has not been considered necessary to provide further information.

F.7. External auditor report.

Report on:

F.7.1 Whether the ICFR reports submitted to the markets have been reviewed by the external auditor, in which case the company must include the corresponding report as an appendix. Otherwise, provide information on the reasons why.

The annual financial information (annual financial audit) has been reviewed by an external auditor before being communicated to the market.

G. DEGREE OF COMPLIANCE WITH CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the Company's degree of compliance with the recommendations of the Code of Good Governance for listed companies.

The rules on the composition and functioning of the supervision and control committees are contained in the board of directors' rules and are consistent with those applicable to the committees that are legally mandatory in accordance with the above-mentioned recommendations, including:

a) That they are exclusively made up of non-executive directors, with a majority of independent directors.
b) The chairmen are independent directors.
c) The board of directors appoints the members of these committees taking into account the knowledge, skills and experience of the directors and the tasks of each committee; it discusses their proposals and reports, and during the first plenary session following their meetings, gives account of their activities which responds to the work carried out;
d) The committees should be able to seek external advice whenever they see fit to perform their duties.
e) Minutes of their meetings are drawn up and made available to all the directors.

- 53. Supervision of compliance with the corporate governance rules, internal rules of conduct and corporate social responsibility policy is the responsibility of one committee or distributed among several committees of the board of directors, which may include the audit, appointment or corporate social responsibility committee, if there is one, or a specialist committee that the board of directors, exercising its powers of self-organisation, decides to create for that purpose, to which the following functions are given, at a minimum:
 - a) Supervising compliance and internal codes of conduct, as well as the company's rules of corporate governance
 - b) Supervising the communications strategy and relationship with shareholders and investors, including small and medium shareholders.
 - c) Periodically assessing the adequacy of the company's corporate governance system, so that it complies with its mission to promote company interests and takes into account, as appropriate, the legitimate interests of other stakeholders.
 - d) Reviewing the company's corporate responsibility policy, ensuring that it is directed at creating value.
 - e) Monitoring corporate social responsibility strategy and practices and assessing the level of compliance therewith.
 - f) Supervising and assessing relationship processes with the various stakeholders.

Explain [X]

At year end 2019, the Company had not expressly assigned the functions indicated in the recommendation to any of the Board of Directors' committees. The audit committee is responsible for this however. In that regard, it was the audit committee that proposed the new Internal Code of Conduct that was approved by the Board of Directors on 25 July 2019. It is the audit committee that periodically assesses the adequacy of the corporate governance system.

54.	The corporate social responsibility policy includes the principles or undertakings that the company assumes voluntarily in its relationships with the various stakeholders and identifies, at a minimum:								
	a)	The aims of	the corpor	ate social responsibil	ity policy and the de	velopment of supp	ort tools.		
	b)	Corporate st	rategy in r	elation to sustainabil	ity, the environmen	t and social matters	S.

Variable remuneration linked to company and personal performance is limited to executive directors, in addition to remuneration

The Company's remuneration policy does not expressly incorporate any of the specific elements indicated in this recommendation in terms of setting the variable component of director remuneration. The setting of the variable component of remuneration is performed by the Board of Directors in response to criteria such as the responsibilities assumed, the performance or the dedication employed by each director, so some of these criteria are taken into account in practice. The Company did not consider it necessary to expressly include these elements in the current remuneration policy, approved in June 2015 and renewed in April 2018, giving greater discretion to the Board of Directors. However, the Company will assess its inclusion in the preparation of the new remuneration policy when the current one expires.
