SAINT CROIX HOLDING IMMOBILIER, SOCIMI, S.A.
Notes to the Financial Statements
for the Year Ending
31 December 2021

1. **Company's activity**

SAINT CROIX HOLDING IMMOBILIER, SOCIMI, S.A. (hereinafter the "Company"), was incorporated in Luxembourg on 1 December 2011. Its registered office was located at Boulevard Prince Henri 9b, L-1724 Luxembourg, Grand Duchy of Luxembourg and the company was duly registered in the Luxembourg Companies Registry (Register de Commerce et des Sociétés) with the number B165103. On 10 June 2014, the Extraordinary General Meeting approved, among others, the relocation of the registered, tax and administrative office (headquarters) to Glorieta de Cuatro Caminos 6 and 7 in Madrid, without winding up or liquidating the company, and to continue performing the activities included under its corporate purpose in Spain as a Spanish public limited company (*sociedad anónima*) and more specifically under the legal and tax framework for listed real estate investment trusts (REITs), while maintaining the listing of all its shares on the Luxembourg Stock Exchange.

After having finalised the process of transferring the headquarters to Madrid, Spain, the Company was duly registered in the Madrid Companies Registry on 15 October 2014.

Its corporate purpose includes but is not limited to the following activities:

- The acquisition and development of urban real estate for leasing. Development activities include the refurbishment of buildings under the terms set forth in Act 37/1992 of 28 December on Value Added Tax.

- The holding of interests in the capital of other listed real estate investment trusts (hereinafter "REITs") or in the capital of other entities not domiciled in Spanish territory which have the same corporate purpose as REITs and which are subject to a similar scheme as the one laid down for REITs with regard to mandatory, legal or statutory policies on the distribution of profits.

- The holding of interests in the capital of other entities, whether or not they are domiciled in Spanish territory, which have as their main corporate purpose the acquisition of urban real estate assets for leasing and which are subject to the same scheme as that established for listed real estate investment trusts (REITs) concerning mandatory, legal or statutory policies on the distribution of profits and which meet the investment requirements laid down by Law 11/2009 of 26 October governing Listed Real Estate Investment Trusts (hereinafter the "REIT Act").
-
- The holding of shares or interests in collective real estate investment institutions governed by Act 35/2003 of 4 November on Collective Investment Institutions.

- The performance of other non-core or complementary financial and non-financial activities that generate revenues which together amount to less than the percentage the REIT Act sets forth at any time for the company's revenue in each tax period.

Given the nature of the activities that the Company currently performs, it has no environmental liabilities, costs, assets, provisions or contingencies which might be significant in relation to its assets, financial situation or results. As a result, no specific breakdowns of information on environmental matters have been included in these notes to the financial statements.

Mergers

- **Merger in 2016**

In 2016, a reorganisation process was carried out to optimise and simplify the corporate structure of the group headed by Saint Croix Holding Immobilier, SOCIMI, S.A. through a merger process whereby the Company absorbed the subsidiaries, Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U. and Inveretiro, SOCIMI, S.A.U, agreed at the Extraordinary and Universal General Shareholders' Meetings of the Acquired Companies held on 19 May 2016 and at the Extraordinary General Shareholders' Meeting of the Acquiring Company held on 19 May 2016. Said merger was undertaken for accounting purposes on 1 January 2016 by means of the winding up without liquidation of the Absorbed Companies and the provision of all equity to the Absorbing Company. The merger agreement was made public through the Merger by Absorption deed granted on 1 July 2016 and entered in the Madrid Companies Registry on 27 July 2016. From that moment on, the Absorbing Company no longer formed a Consolidated Group.

As a result of the aforementioned operation, merger reserves of 14,154,738 euros arose on account of the difference between the individual book values and the book values incorporated as part of the merger.

The merger was undertaken under the special system of mergers, divisions, transfers of assets and exchanges of securities provided for under Chapter VIII of Law 27/2014, of 27 November on the Corporation Tax Law.

- **Merger in 2018**

On 1 March 2018, the Company acquired 100% of the shares of Bensell Mirasierra S.L.U. for 17,623,669 euros. The only real estate asset of this company was an office building located at calle Valle de la Fuenfría 3 in Madrid, with a gross leasable area of 5,987 m2 . The transaction described above generated goodwill attributable to its assets amounting to 5,506,170 euros, which was recognised as an increase in the cost of the property (separately between land and construction) and which will be depreciated (the portion attributable to construction) over the estimated useful life of the property.

An Extraordinary General Shareholders' Meeting of the Company held on 28 June 2018 approved, among others, the following resolutions:

- Merger by the Company (absorbing company) of its subsidiary, Bensell Mirasierra S.L.U. in accordance with the merger project recorded in the Mercantile Registry of Madrid on 16 May 2018.

- On 21 September 2018, the Company signed the deed to merge with its subsidiary. The merger agreement was registered in the Mercantile Registry of Madrid on 16 November 2018.

The merger was undertaken under the special system of mergers, divisions, transfers of assets and exchanges of securities provided for under Chapter VIII of Law 27/2014, of 27 November on the Corporation Tax Law.

Alternative Fixed Income Market

- **2015 Fixed Income Securities Issuance Programme**

On 30 September 2015, the Company filed the base informative document regarding the incorporation of mid- and long-term securities regarding a "2015 Fixed Income Securities Issuance Programme" on the Alternative Fixed Income Market (MARF"). The Base Document was published on the website of the Alternative Fixed Income Market, as well as on the Company's website. For the purposes of registering said bond programme, the Company was awarded a credit rating of BBB, stable (investment grade) by Axesor. The programme had a duration of 1 year. The funds obtained from the issue were to be used for investment in real estate assets and renovation of the assets in the portfolio.

The main features of the aforementioned programme can be summarised as follows:

- Maximum issue amount: 80,000,000 euros
- Repayment period: Between 2 and 7 years
- Coupon: Annual

- Nominal unit value ≥ 100,000 euros
- Aimed at: accredited investors

In 2016, two sets of Fixed Income securities were issued by the Company as part of the aforementioned programme for the combined total of 10,000,000 euros, the main characteristics of which were as follows:

	2021 Uncovered Bonds	2022 Uncovered Bonds
Nominal amount	8,000,000	2,000,000
Issue date	23 June 2016	23 June 2016
Maturity date	23 June 2021	23 June 2022
Annual coupon	2.50%	2.50%
Coupon payment	Annual	Annual
APR of the issuer	2.72%	2.77%

Average APR of both issues for the issuer was 2.73% per annum. The two sets of securities issued have been traded on the Alternative Fixed Income Market "MARF" since 24 June 2016 (see Note 13).

Currently there is no Fixed Income Securities Issue Programme in force other than that mentioned above.

2. Applicable law

The Company is governed by Law 11/2009 of 26 October governing Listed Real Estate Investment Trusts, as amended by Law 16/2012 of 27 December. Article 3 of said Law, as amended by the new Law, sets forth the investment requirements for this kind of companies, which are as follows:

1. REITs shall have at least 80 per cent of the value of their urban real estate assets allocated to leasing and to land for real estate development which are to be allocated to such purpose, provided that development is initiated within three years following its acquisition.

   The asset value shall be determined according to the yearly average of the separate quarterly balances and, in order to calculate such value, the Company may opt to replace the book value of the elements comprising said balances with their market value, which would then be applied to the entire year's balances. In this case, the money or credit rights from the transfer of this real estate or equity interests made in the same year or in previous years shall not be included in the calculation, as applicable, provided that, in the case of the latter, the reinvestment period established in Article 6 of this Act has not elapsed.

2. Likewise, at least 80% of the tax period income corresponding to each financial year, excluding income from the transfer of holdings and of real estate both destined to fulfilling their main corporate purpose, must come from the leasing of real estate and from dividends or interests in the profits from such interests once the maintenance period referred to in the following paragraph has elapsed.

   Said percentage shall be calculated on the basis of the consolidated profit (loss) should the company be the parent company of a group as per the criteria set forth in Article 42 of the Code of Commerce, irrespective of its domicile and of the obligation to draw up consolidated annual accounts. Such group shall solely be comprised of REITs and the rest of the entities referred to in paragraph 1, Article 2 of this Act.

3. The real estate constituting the company's assets must be leased for at least three years. For calculation purposes, the time the real estate assets have been offered for lease shall be counted, up to a maximum of one year.

   The term shall be calculated:

   a) From the start date of the first tax period in which the special tax regime set forth in this Law applies, in the case of real estate included in the company's assets prior to joining the scheme, as long as that on said date the asset was leased or offered for lease. Otherwise, the provisions set forth in the following point shall apply.

b) From the date on which they were leased or offered for lease for the first time, in the case of real estate assets subsequently developed or acquired by the company.

In the case of shares or interests in the entities referred to in paragraph 1, Article 2 of this Law, they must be maintained in the company's assets for at least three years from the date of acquisition or, as appropriate, from the start of the first tax period in which the special tax regime set forth in this Law applies.

As set forth by the First Transitional Provision of Law 11/2009 of 26 October governing Listed Real Estate Investment Trusts, as amended by Law 16/2012 of 27 December, such companies may opt to apply the special tax regime under the terms set forth in Article 8 of said Law, even where the requirements laid down therein have not been fulfilled, provided such requirements are met within two years of the option date on which the company chooses to apply the scheme.

The failure to comply with this condition shall mean that the Company will once again be taxed as per the general tax scheme for Corporation Tax, as from the tax period when the failure to comply comes about, except where it is corrected in the following year. Furthermore, along with the tax liability for such tax period, the Company shall be obliged to pay the difference between the tax liability for the tax resulting from the application of the general scheme and the tax liability effectively paid resulting from applying the special tax regime in prior tax periods, without prejudice to any late payment interest, surcharges and penalties which may, as appropriate, apply.

In addition to the above, the amendment of Law 11/2009 of 26 October by Law 16/2012 of 27 December 2012 established the following specific changes:

a) More flexible criteria for the inclusion and maintenance of real estate assets: there is no lower limit on the number of real estate assets to be contributed at the REIT's incorporation, except for housing units, of which at least eight must be contributed. Real estate assets no longer have to remain on the company's balance sheet for seven years but only for at least three years.

b) Reduction in capital requirements and freedom to leverage: the minimum capital required was reduced from 15 to 5 million euros, eliminating the restriction on the property investment vehicle's maximum borrowing.

c) Reduction in dividend distribution: until the Law came into force, 90% of the profits had to be distributed. This mandatory figure was reduced to 80% as from 1 January 2013.

The Corporation Tax levy for REITs is set at 0%. Nonetheless, where the dividends a REIT distributes to its members holding an interest exceeding 5% are exempt or taxed at a levy below 10%, the REIT will be subject to a special levy of 19%, which shall be deemed as the Corporation Tax liability on the amount of the dividends distributed to such members. If applicable, this special levy shall have to be paid by the REIT within two months from the date the dividends are distributed.

At year-end, the Company's directors consider that it meets all the requirements established by the aforementioned law.

Law 11/2021, of 9 July and Order HFP/1430/2021, of 20 December

Law 11/2021, of 9 July, on measures for preventing and combating tax fraud, transposing Directive (EU) 2016/1164, of the Council, of 12 July 2016, establishing rules against tax evasion with a direct impact on the domestic market, amending several tax and gaming regulation standards, amending Law 11/2009, of 26 October, establishing a special levy on undistributed profits from income not taxed at the general corporation tax rate and that are not within the legal reinvestment period, adapting the information supply obligations to the new taxation system.

In this regard, and effective for the tax periods starting 1 January 2021, it amends Article 9 of Law 11/2009, of 26 October, on the special tax regime for companies in relation to corporation tax. The new Article 9(4) establishes that Real Estate Investment Trusts shall be subject to a special levy on profits obtained during the year that are not distributed, applicable to the part generated on income not taxed at the general corporation tax rate and that is not classed as income within the legal reinvestment period, as regulated under Article 6(1)(b) of the aforementioned law. This levy shall be considered tax payable in relation to corporation tax.

Subsequently, under Order HFP/1430/2021, of 20 December, approving form 237 “Special levy on undistributed profits by real estate investment trusts. Corporation tax. Self-assessment”, the method and procedure for filing corporation Tax in the form of self-assessments are defined.

It also regulates the following aspects:

- Those required to file the Form: Companies choosing to apply the REIT tax regime provided for in Law 11/2009 of 26 October.

- Profits to be declared: Undistributed profits in the year generated on income not taxed at the general corporation tax rate, excluding income within the reinvestment period under Article 6.1.b) of Law 11/2009. This levy shall be considered tax payable in relation to Corporation tax.

- Levy rate: The levy rate shall be introduced for the settlement of the tax (15% from 1 January 2021).

- Entry into force and year applicable: The order enters into force on 3 January 2022 and applies for tax periods starting on 1 January 2021 onwards.

- Self-assessment submission period: Accrued on the day of the appropriation of earnings agreement, subject to self-assessment in the 2 months following the accrual date.

3. Basis for presenting the financial statements

a) Regulatory financial reporting framework applicable to the Company

These financial statements have been produced by the Directors pursuant to the regulatory financial reporting framework applicable to the Company, established in:

- the Code of Commerce and other trade law.

- General Accounting Plan approved by Royal Decree 1514/2007, which was amended in 2016 by Royal Decree 602/2016, subsequently amended by Royal Decree 1159/2010 and subsequently amended by Royal Decree 1/2021, of 12 January, and the sectoral adaptation to real-estate companies.

- The mandatory regulations approved by the Institute of Accounting and Account Audits in developing the General Accounting Plan and its complementary regulations.

- Law 11/2009 of 26 October governing Listed Real Estate Investment Trusts (REITs), as amended by Law 16/2012 of 27 December.

- Other applicable Spanish accounts regulations.

b) True and fair view

The attached financial statements have been obtained from the Company's books and are presented pursuant to the applicable regulatory financial reporting framework and, in particular, the accounting principles and criteria contained therein, in such a way that they are a true reflection of the equity, financial situation and results of the Company and the cash flows during the corresponding year.

These financial statements, which have been authorised for issue by the Directors of the Company, shall be subject to approval by the General Shareholders' Meeting, and it is considered that they will be approved without changes. In turn, the Company's financial statements for 2020 were approved without modification by the General Shareholders' Meeting held on 29 April 2021.

c) Non-mandatory accounting principles employed

No non-mandatory accounting principles have been employed. Furthermore, the Directors have created these financial statements considering all mandatory accounting standards and principles that have a significant impact on said statements. No mandatory accounting principles have been disregarded.

d) Grouping of items

Certain entries on the balance sheet, the profit and loss account, the statement of changes in equity and the cash flow statement have been grouped together to facilitate their understanding. However, to the extent by which it is significant, detailed information with breakdowns has been provided in the corresponding notes of the annual report.

e) Critical aspects of the valuation and the estimate of uncertainty

The estimates made by the Directors of the Company to value some of the assets, liabilities, revenues, expenses and undertakings booked in the financial statements attached hereto have sometimes been used in the process of producing the financial statements. These estimates essentially refer to:

- The valuation of any possible impairment losses of specific assets (see Note 5.1 and 5.3.).
- The useful life of real estate assets (see Note 5.1).
- The calculation of provisions (see Note 5.7).

Despite the fact that these estimates were made on the basis of the best available information at the end of financial year ending on 31 December 2021, it is possible that future events may make it necessary to adjust them either upward or downward in upcoming financial years, which will be done, as appropriate, prospectively.

At 31 December 2021, the Company had a negative working capital balance of 2,185,847 euros (positive balance of 5,809,924 euros at 31 December 2020). The Company has once again generated positive EBITDA, meaning that the Company's Board of Directors believes that this does not represent uncertainty as regards the continuity of the Company, as future profits to be earned next year, generated by contracts involving real estate assets, shall cover the Company’s short-term obligations.

f) Comparison of the information

The information contained in this report which refers to 2021 is presented along with the 2020 information for the purposes of comparison. The items in both years are comparable and homogeneous, except for the provision of Note 3.h) below.

g) Correction of errors

In the production of the attached financial statements, no error has been identified that requires the re-statement of amounts included in the financial statements for 2021.

h) Changes to accounts criteria

The first application of the measures introduced under the General Accounting Plan through Royal Decree

1/2021, of 12 January, mainly regarding the rules for registering and measuring financial instruments and recognising income, has only entailed the reclassification of financial instruments to the new categories introduced by Royal Decree 1/2021 on 1 January 2021.

The reconciliation of financial assets and liabilities on the first date of application, as regards their classification and measurement in line with the new category, is as follows:

(Euros) Reclassified from:	Balance at 1 January 2021	Reclassified to: Financial assets at fair value through profit or loss	Financial assets at amortised cost	Liabilities income at amortised cost
Loans and receivables	7,053,691	-	7,053,691	-
Financial assets held for trading	13,058,645	13,058,645	-	-
Debits and payables	103,926,796	-	-	103,926,796

4. Profit distribution

The proposal for the distribution of the Company's profits for 2021 to be submitted by the Directors of the Company to the shareholders is as follows:

	Euros
Basis of distribution:	
Profit and Loss	21,824,771
Distribution:	
Legal reserve	2,182,477
Voluntary reserve	4,494,171
Dividends	15,148,123

The dividend corresponding to 2020 came to 8,499,697 euros. On 29 December 2020, the Board of Directors at the Company approved the distribution of an interim dividend for 2020 of 1.57 euros gross per action, paid out on 29 December 2020, equivalent to a gross amount of 7,000,000 euros. The General Shareholders Meeting held on 29 April 2021 approved the distribution of dividends charged to 2020 profits, of 1.91 euros per share, of which 1.57 euros per share were paid out as part of the interim dividend mentioned above. The gross final dividend for 2020 for the sum of 1,499,697 euros was fully paid out by the Company to its shareholders on 5 May 2021.

5. Accounting principles and accounting and measurement rules

The main valuation principles used by the Company in drawing up its financial statements for the year ended on 31 December 2021 are as follows (in accordance with those established by the Spanish General Chart of Accounts):

5.1 Property investment

The "property investment" item on the balance sheet reflects the value of land, buildings and other constructions and fixtures that are held either to operate them under leases or to obtain a capital gain on their sale as a consequence of any increases that may come about in the future in their respective market prices.

These assets are initially valued at their acquisition price or production cost, which is subsequently reduced by their corresponding accumulated depreciation and impairment losses, if any.

The Company depreciates real estate investments following the straight-line method by applying annual depreciation percentages calculated on the basis of the respective assets' years of estimated useful life:

The breakdown of the estimated useful life of its property investments is as follows:

	Years of Estimated Useful Life
Buildings	50
Plant	15 – 20
Machinery	8
Other fixtures	20
Tools and furniture	10
Other fixed assets	6 - 10

As indicated above, the Company depreciates these assets in accordance with the aforementioned years of estimated useful life, considering as a basis for depreciation their historic cost values increased by new investments which will be made and which involve an increase in their added value or their estimated useful life.

Impairment in the value of property investments

Whenever evidence for impairment may exist, the Company proceeds to estimate through the so-called "Impairment Test" the possible existence of impairments which reduce the recoverable value of such assets to below their book value. The recoverable amount is determined as the higher between fair value minus sales costs and usage value. As part of the calculation of the fair value, the Company has used level 2 estimates, as these are based on measurement methodologies in which all the significant variables are based on directly or indirectly observable market data.

The Company commissioned Jones Lang Lasalle, an independent expert, to conduct a valuation of its assets, which was issued on 25 January 2022, in order to determine the fair values of all its property investments at year-end. Such valuations were conducted on the basis of the market lease value (which consists of capitalising net rents from each property and updating future flows). Acceptable discount rates were used to calculate fair value for a potential investor, which are in keeping with those used by the market for properties having similar characteristics and locations. The valuations were made in accordance with the Appraisal and Valuation Standards published by the Royal Institute of Chartered Surveyors (RICS).

The key assumptions used to determine the fair value of these assets and their sensitivity analysis are explained in Note 6.

In the case of some assets, specifically, those used in the hotel industry, a percentage of 0.25% has been applied as a risk component to variable income and/or fixed income to reflect the uncertainty generated by COVID-19 in terms of the performance of the tourism industry, in addition to the possibility of new waves.

Where an impairment loss is subsequently reverted, the asset's book value is increased up to the revised estimate of its recoverable value in such a way as to ensure that the increased book value does not exceed the book value that would have been determined if no impairment loss had been recognised in prior years. Such reversion of an impairment loss is recognised as income.

5.2 Leases

Leases are classified as financial leases whenever it can be deduced from the lease agreements that the risks and benefits inherent to owning the asset which is the purpose of the agreement are substantially transferred to the lessee. All other leases are classified as operating leases. The Company had no financial leases at year-end 2021 or 2020.

Operating leases

The expenses arising from the operating lease agreements are charged to the profit and loss account in the financial year in which they accrue.

Likewise, any acquisition costs of the leased asset are reflected on the balance sheet in accordance with their nature increased by the amount of any costs which may be directly stemming from the agreement, which are recognised as an expense over the term of the agreement term by applying the same criterion used to recognise revenue resulting from the lease.

Any charge or payment that may be made when entering into an operating lease is dealt with as an advance charge or payment and charged to income over the lease's term as the profits of the leased asset are progressively assigned or received.

5.3 Financial instruments

5.3.1 Financial assets

Classification

The financial assets owned by the Company are classified into the following categories:

a) **Financial assets at amortised cost:**

   i. Loans and receivables: consisting of financial assets resulting from the sale of assets or the provision of services for the Company's trade operations, or any that do not have their origin in trade operations, are not equity instruments or derivatives and whose charges are of a fixed or determinable amount and are not traded in an active market.

   ii. The bonds and deposits set up by the Company in compliance with the contractual clauses of the various lease agreements.

b) **Financial assets at fair value through profit and loss:** assets acquired with a view to disposing of them in the short term or those that form part of a portfolio concerning which there is evidence of recent activities with this in mind.

Initial valuation

Financial assets are initially booked at the fair value of the consideration handed over plus any transaction costs that can be directly attributable to them.

Subsequent valuation

Financial assets at amortised cost are measured at their amortised cost. However, credits and debits linked to commercial operations maturing in no more than one year, and that are not associated with a contractual interest rate, in addition to, as applicable, advances and loans to staff, dividends receivable and disbursements required in relation to equity instruments, the amounts of which are expected to be received in the short term, and the disbursements required by third parties on their holdings, the amounts of which are expected to be paid out in the short term, are measured at their nominal value when the effect of not updating cash flows is not considered significant.

Financial assets at fair value through profit and loss are measured at their fair value, booking the result of variations in said fair value in the profit and loss account.

At least at the close of the year, the Company conducts an impairment test on any financial assets not booked at fair value. It is deemed that objective evidence for impairment exists if a financial asset's recoverable value is less than its book value. When this comes about, the impairment is booked in the profit and loss account.

Generally speaking, the fair value considered by the company refers to a reliable market value.

The Company uses the observable prices of recent transactions involving the same asset measured as a reference or using prices based on observable market data or indexes that are available and are applicable.

Thus, the following fair value hierarchy is established depending on the following levels of estimation:

a) Level 1: estimates that use unadjusted listed prices on active markets for identical assets or liabilities, which the Company could assess on the measurement date.

b) Level 2: estimates that use listed prices on asset markets for similar instruments or other measurement methods in which all significant variables are based on directly or indirectly observable market data.

c) Level 3: estimates in which any significant variable is not based on observable market data.

More specifically, the criterion used by the Company to calculate the corresponding value corrections concerning trade receivables and other accounts receivable, if any, consists of making an annual allocation in the balances of a certain seasoning or in those in which circumstances come about that would reasonably allow one to classify them as non-performing.

The Company writes off financial assets when they expire or when the rights over cash flows from the financial asset in question have been assigned and the risks and benefits inherent to their ownership have been substantially transferred.

Contrariwise, the Company does not write off financial assets in financial asset assignments where the risks and benefits inherent to their ownership are substantially retained, recognising a financial liability equivalent to the consideration received.

5.3.2 Financial liabilities

Classification

The financial liabilities owned by the Company are classified into the following categories:

- Financial liabilities at amortised cost: any debits and payables the Company has resulting from the purchase of goods and services from the company's trade operations, or also any that do not have a trade-related origin which cannot be considered as derivative financial instruments.

Financial liabilities at amortised cost are initially valued at the fair value of the consideration received, adjusted by any transaction costs that can be directly attributed to them. Subsequently, such liabilities are valued in accordance with their amortised cost.

The Company writes off financial liabilities when the obligations they have generated expire.

5.3.3 Hedge instruments

The Company uses derivative financial instruments to hedge the risks to which is activities, operations and future cash flows are exposed. These risks arise from changes in interest rates. Within the framework of these operations, the Company contracts hedging financial instruments.

For these financial instruments to qualify as hedge accounting, they are initially designated as such and the hedging relationship is documented. Furthermore, the Company initially verifies, and continues to do so over the course of its useful life (at least at the end of each year), that the hedge relationship is effective, in other words, that the hedging ratio is the same as the hedging ratio used for the purposes of management, in other words, it is the same as the ratio resulting from the amount of the hedged item that the company is actually hedging and the amount of hedge instrument that the company actually uses to hedge said amount of the hedged item. The part of the hedge instrument designated as an effective hedge could include an ineffective residual part, provided that it does not reflect an imbalance between the weightings of the hedged item and the instrument. This ineffective part shall be the same as the surplus variation in the value of the hedge instrument designated as an effective hedge against the variation in the value of the hedged item.

The Company only applies cash flow hedges, which are accounted for as described below:

- Cash flow hedges: In this type of hedging, the profit or loss on the hedging instrument which has been determined as effective hedging is temporarily recognised in equity, and charged to the profit and loss account in the same period in which the item being hedged affects the results, unless the hedge corresponds to a projected transaction which entails the recognition of a non-financial asset or liability, in which case the amounts recorded in equity will be included in the cost of the asset or liability when it is acquired or assumed.

The value of the derivatives reflects the fair market value of the derivatives at 31 December 2021. These derivatives have been contracted to hedge the interest rate risk and that fair value represents the payment which would have to be made if it were decided to sell them or transfer them to a third party.

The accounting for hedges is interrupted when the hedging instrument matures or is sold, finalised or exercised, or no longer meets the criteria for hedge accounting. At that time, any cumulative gain or loss corresponding to the hedging instrument which has been recorded in equity is held within equity until the expected operation occurs. When the operation being hedged is not expected to occur, the cumulative net gains or losses recognised in equity are transferred to the net results of the period.

5.4 Classification of balances into current and non-current balances

Current assets are deemed to be any assets linked to the normal operating cycle, which in general terms is considered to be a year, along with any other assets whose maturity, disposal or realisation is expected to come about in the short term from the date of the close of the year, along with cash and cash equivalents. Any assets which do not meet these requirements are classified as non-current assets.

Similarly, current liabilities are those linked to the normal operating cycle and, in general terms, include all obligations whose maturity or extinction will come about in the short term. Otherwise, they are classified as non-current liabilities.

5.5 Income tax

After its amendment by Law 16/2012 of 27 December, the special tax regime for REITs is based on a zero per cent Corporation Tax levy, provided certain requirements are met. Among these, it is worth highlighting the requirement that at least 80% of assets must be comprised of urban properties designated for leasing which are fully owned or acquired through interests in companies that meet the same investment and distribution of results requirements, be they Spanish or foreign, whether or not they are listed on organised markets. Likewise, the main sources of income of these entities must come from the property market, be it from leases, the subsequent sale of real estate after a minimum maintenance period or the income from interests in entities having similar characteristics.

Nonetheless, the tax is accrued proportionally to the distribution of dividends carried out by the company. Any dividends received by the partners are exempt, except where the recipient is a legal person subject to Corporation Tax or a permanent establishment belonging to a foreign entity, in which case a deduction has been established for the total tax liability, so that such income is taxed at the partner's tax levy. However, the remaining income will not be taxed while it is not paid out to the members.

As stipulated by the Ninth Transitional Provision of Law 11/2009 of 26 October governing Listed Real Estate Investment Trusts, as amended by Law 16/2012 of 27 December, the entity will be subject to a special 19% tax levy on the full amount of the dividends or profit sharing distributed to members whose interest in the entity's share capital is equivalent to or greater than five percent, where such dividends at the registered office of its members are exempted from tax or taxed at a levy below ten per cent. However, the special tax levy shall not apply where the dividends or profit-sharing are received by other REITs, regardless of what their percentage holding may be.

Hence, the Company has proceeded to apply a tax levy of 0% on the dividends shared out to its shareholders since the aforementioned condition has been met.

Notwithstanding the foregoing, as indicated in Note 2, through Law 11/2021, of 9 July and Order HFP/1430/2021, of 20 December, a special levy on undistributed profits by real estate investment trusts has been approved within corporation tax, in the self-assessment category; companies choosing to apply for the REIT tax system provided for in Law 11/2009 of 26 October shall be required to file this, with the profits to be declared considered the undistributed profits during the year generated on income not taxed at the general corporation tax rate, excluding income within the reinvestment period set out under Article 6(1)(b) of Law 11/2009. This levy is considered corporation tax payable at the rate of 15% applicable to tax years starting on or after 1 January 2021. This levy is considered corporation tax payable for the year.

5.6 Income and expenses

Income and expenses are booked on an accrual principle, that is to say, when the real flow of goods and services they represent comes about irrespective of the moment when the monetary or financial flows arising from them are produced. Such income is valued at the fair value of the consideration received, deducting any discounts and taxes.

The recognition of income from sales comes about at the moment the significant risks and benefits inherent to ownership of the asset sold have been transferred without maintaining day-to-day management over such asset, or retaining effective control over it.

Interest accrued on financial assets is recognised using the effective interest rate method. In any event, the interest from financial assets accrued subsequent to the moment of acquisition is recognised as income in the profit and loss account.

The income from real estate leases is booked on the basis of its accrual and the difference, if any, between the invoicing carried out and the income recognised in keeping with this criterion is booked in the "Accrual adjustments" item.

5.7 Provisions and contingencies

When drawing up the financial statements, the Directors of the Company have differentiated between:

a) Provisions: credit balances which cover current obligations arising from past events whose cancellation will probably lead to an outflow of resources, but which cannot be determined as to their amount and/or moment of cancellation.

b) Contingent liabilities: possible obligations arising as a consequence of past events, whose future materialisation is conditional upon whether or not one or more future events which are beyond the Company's control take place.

The financial statements reflect all the provisions regarding which the likelihood of having to face an obligation is estimated to be higher than not having to do so. Contingent liabilities are not recognised in the financial statements. Information about them, however, is provided in the notes to the notes to the statements to the extent by which they are not deemed as remote possibilities.

Provisions are valued at the current value of the best possible estimate of the necessary amount to cancel or transfer the obligation, taking into account available information on the event and its consequences, and booking any adjustments that may arise due to the updating of such provisions as a financial expense as they accrue.

5.8 Environmental asset elements

Environmental asset elements are deemed to be any assets which are used in a long-lasting manner in the Company's operations and principal purpose is to minimise environmental impacts and to protect and improve the environment, including reducing or eliminating future pollution.

By their very nature, the Company's operations do not have any significant environmental impacts.

5.9 Subsidies, donations and bequests

In order to book subsidies, donations and bequests received from third parties other than the owners, the Company follows the following criteria:

a) Non-reimbursable capital grants, donations and bequests: These are valued at the fair value of the amount or asset granted, depending on whether they are of a monetary nature or not. They are charged to income in proportion to the depreciation allocation allocated in the period for subsidised elements or, as appropriate, when their disposal or valuation allowance due to impairment comes about.

b) Reimbursable subsidies: As long as they are deemed as reimbursable, they are booked as liabilities.

5.10 Related-party transactions

The Company performs all its transactions with related parties at market prices. Moreover, transfer prices are properly documented. Hence, the Directors of the Company consider that there are no significant risks which could give rise to considerable liabilities in the future due to this aspect.

6. Property investment

The "Real estate investments" item reflects the net cost of the real estate assets in use and operation and leased through one or more operating leases, or the assets which are unoccupied but are destined to be leased through one or more operating leases.

The main changes in this item during 2021 were as follows:

Investments: Property investments made in 2021 totalled 44,987,300 euros. The main additions recorded under this heading relate mainly to the following investments:

- In October, the acquisition of a public use office building located at Calle Arapiles 14 de Madrid with a gross leasable area (GLA) of 6,777.45 m2 was formally arranged. Furthermore, and in parallel, the Company has reached an agreement with a top-tier operator to occupy the entire building once the demolition work, structural improvements and general renovation of installations, in addition to others, are complete. These works are expected to be completed in the final quarter of 2022.

- In November, the acquisition of a shopping centre located at Avenida de la Victoria 2, in Madrid known under the commercial name Centro Comercial Sexta Avenida with a gross leasable area (GLA) of 16,870 m2 and 423 outdoor parking spaces was completed.

- Registrations have been made in relation to ongoing constructions for the sum of 2,937,756 euros corresponding mainly to the costs of refurbishing Hotel Innside Meliá Gran Vía in Madrid in addition to other refurbishments made in to the recently acquired buildings at Calle Arapiles 14 and Calle Pradillo 42, both in Madrid.

- Furthermore, the Company has incurred in costs of 770,687 euros, capitalised as the cost of property investment.

Disposals: Property write downs for the gross amount of 14,452,531 euros were undertaken. The main write downs in 2021 correspond to:

- Sales of several properties and the corresponding annexes in Vallecas Comercial I (1 unit) and Coslada III (3 units) for the gross cost of 729,718 euros, sold to third parties. These sales transactions gave rise to a combined net loss of 26,722 euros, which was recognised under "Impairment and gains or losses on disposals of non-current assets" in the profit and loss account at 31 December 2021.

- November saw the sale of Urban Plot number 1 as part of the reparcelisation project “UE 14” of the Daganzo subsidiary rules entered in Property Register number 2 of Torrejón de Ardoz (Madrid) under estate number 9,645 and the industrial building located on this plot at Calle Ramón y Cajal, 45, Daganzo de Arriba (Madrid), resulting in their derecognition for a gross book value of 13,722,813 euros. This divestment gave rise to a net gain of 9,549,341 euros, which was recognised under "Impairment and gains or losses on disposals of non-current assets" in the profit and loss account at 31 December 2021. The commercial costs of this sale came to 561,000 euros, recognised under the independent professional services heading in the company's operating costs for 2021. However, for the purposes of taxation as regards calculating the dividend to be distributed, this commercial cost has been allocated as a reduction in the profit on the sale of real estate assets, bringing the net profit to 8,988,341 euros.

Transfers: During the year, ongoing real-estate investments have been transferred to property investments for the sum of 3,413,344 euros (11,884,126 euros in 2020), as a result of the completion of refurbishment work at Hotel Innside Meliá Gran Vía.

Furthermore, the Company proceeded to appraise all of its real estate assets at year-end 2021 as stipulated in the standards. Said appraisals, which were conducted by the independent expert Jones Lang LaSalle (performed by CBRE the previous year) resulted in a fair value for some assets lower than their net book value. The Company has therefore calculated the corresponding impairments.

Depreciation in 2021 came to 5,689,081 euros (5,460,158 euros in 2020), recognised under "Fixed asset depreciation" on the Company’s income statement.

Fair value measurement and sensitivity

The methodology used by the independent appraiser in the valuations to determine the fair value of the investment property has followed the RICS principles, which basically uses discounted cash flows as the valuation method, consisting of capitalising the net income from each property and discounting the future flows, applying market discount rates, over a ten-year time horizon and a residual value calculated by capitalising the estimated income at the end of the projected period to an estimated yield. The buildings were valued individually, taking into account each of the lease contracts in force at the end of the year and their duration. Buildings with non-rented areas have been valued on the basis of estimated future income, discounting a marketing period. The valuation criteria applied were the same as those used in previous years.

The key variables of this method are the determination of net income, the duration of the leases, the period of time during which the leases are discounted, the approximation to the value that is made at the end of each period and the target internal rate of return-used to discount the cash flows.

The independent expert applies the valuation methods to its property investments:

Valuation method	% according to GAV
Cash flow discount	27%
Capitalisation	67%
DCF and residual	4%
Comparison	2%
Total	**100%**

The key variables used in the valuations made using the discounted cash flow method are:

- Current income: the income generated by each property on the valuation date and considering non-refundable expenses only for empty spaces.

- Estimated income for empty spaces and/or new leases during the years of the cash-flow.

- Exit Yield: rate of return required at the end of the valuation period for the sale of the asset. At the end of the discount period an exit value has to be determined for the property. At that time it is not possible to reapply a cash flow discount methodology and the sale value has to be calculated according to an exit yield based on the income that the property is generating at the time of sale, provided that the cash flow projection is understood to be a stabilized income that we can capitalise on a perpetual basis.

- IRR: is the interest rate or return offered by an investment, the value of the discount rate that makes the NAV equal to zero, for a given investment project.

- ERV: Market income of the asset at the valuation date.

2021

The main assumptions used to calculate the fair value of the real estate assets for 2021 were as follows:

	Euros			
	Current Income	**ERV**	**Exit Yield**	**IRR**
Hotels	9,449,449	6,857,371	6.16%	8.07%
Offices	10,116,162	10,497,870	4.35%	N/A
Retail	6,938,178	7,019,315	3.41%	N/A
Shopping centres	3,591,666	3,001,072	8.03%	10.03%

2020

The main assumptions used to calculate the fair value of the real estate assets for 2020 were as follows:

	Euros			
	Current Income	**ERV**	**Exit Yield**	**IRR**
Hotels	8,609,862	7,763,047	6.04%	8.00%
Offices	7,778,317	8,231,425	4.68%	6.63%
Retail	7,127,633	6,994,792	7.75%	9.75%
Industrial	1,329,620	745,740	N/A	N/A

The effect of a one-quarter of one point change in the required rates of return, calculated as income on the market value of the assets, in the asset and in the profit and loss account, for the property investment under operation, would be as follows:

	Yield (Euros)			
	2021		**2020**	
	-0.25%	**+0.25%**	**-0.25%**	**+0.25%**

Total	**36,390,000**	**-31,870,000**	**24,548,391**	**-26,604,231**

In addition, the sensitivity analysis of a 10% change in ERV (market rent on the asset at the valuation date) would be as follows:

	ERV (Euros)			
	2021		2020	
	-10%	+10%	-10%	+10%
Hotels	-	-	-	-
Offices	-18,810,000	18,990,000	-13,690,010	12,608,532

Total	**-37,880,000**	**38,050,000**	**-28,085,701**	**25,013,558**

Lastly, the sensitivity analysis of a quarter point variation of the IRR would be as follows:

	IRR (Euros)			
	2021		2020	
	-0.25%	-0.25%	-0.25%	+0.25%
Hotels	2,670,000	-2,560,000	2,330,000	-1,400,000

Based on the valuations performed, there has been a negative net impact on the Company's income statement at 31 December 2021 for the sum of 385,598 euros (negative net impact of 184,777 euros at 31 December 2020); the breakdown by asset type and changes in provision for impairment of property investments is as follows:

	Euros

Furthermore, based on the valuations performed, the fair value of property investments shows an unrecognised gain (by comparison between the gross updated market fair value and the net carrying value) of 222,711,026 euros (191,763,275 euros at 31 December 2020).

The gross market value of the property investments at year-end 2021 and 2020 broken down by activity segment is as follows:

	Gross market value of the Property investments (Euros) (*)	
	31/12/2021	31/12/2020

Total	**619,668,431**	**563,203,443**

(*) The net market value at 31 December 2021 comes to 601,220,000 euros.

The breakdown of floor space in square metres above ground level (S.B.A.) of the property investments owned by the Company was:

	Floor area in m² above ground level	
	31/12/2021	**31/12/2020**
Hotels	80,135	80,135
Offices	45,861	39,436

Total	**166,732**	**157,364**

At 31 December 2021, the average occupancy rate of the Company's leased assets was 92% (93% at 31 December 2020) based on the square metres leased.

The property investments described above are mainly located in Madrid, Castellón and Isla Canela, Ayamonte in the province of Huelva.

The Company's leased asset portfolio at 31 December 2021 contained no assets (1 hotel at 31 December 2020) following the transfer from Sociedad Absorbida, Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U., to the Company as a result of the merger performed in 2016 and outlined in Note 1, subject to a mortgage guarantee (972,719 euros at 31 December 2020) (Note 16).

On 1 January 2010, Isla Canela, S.A. and Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U, entered into a "Service Provision Agreement with Mortgage Guarantee", by means of which the latter provided the former with the mortgage guarantee service whereby the hotels owned by the latter will respond for repayment by the former of the mortgage-backed loans taken out from the institutions in accordance with the arrangements agreed upon in their articles of incorporation deeds until each of the mortgage loans entered into is definitively redeemed. Isla Canela, S.A. undertakes to pay any depreciation instalments and ancillary costs that may arise punctually until the loans guaranteed with a mortgage are redeemed. Due to the provision of the service described above, Isla Canela, S.A. pays the Company a fee; this an annual lump-sum amount equivalent to 0.25% of the average annual outstanding balance of the mortgage-backed loans calculated on 31 December each year, which is invoiced and paid on the last day of each calendar year. This amount may be modified annually by agreement between the parties to adapt it to the average market price paid by the Company for the provision of bank guarantees (bank guarantees and surety insurance) by financial institutions. As a result of the merger carried out in 2016 set out in Note 1, the rights and obligations of the aforementioned contract were transferred to the Company, Saint Croix Holding Immobilier, SOCIMI, S.A.

The revenue resulting from this agreement due in 2021 and invoiced to Isla Canela, S.A. amounted to 540 euros (5,782 euros in 2020) (see Note 19).

Furthermore, the Companies' assets are affected by mortgage guarantees amounting to 50,867,006 euros at 31 December 2021 (54,016,448 euros at 31 December 2020), corresponding to bank mortgage-backed loans.

The breakdown of the mortgage loan balance pending maturity and repayment at 31 December 2021 and 2020 by assets is as follows:

Property	Euros	
	2021	**2020**
José Abascal, 41	10,374,000	10,944,000

Total value of mortgages pending maturity on assets (Note 13)	**50,867,006**	**54,016,448**

NB: The net book value of these mortgage-backed properties at 31 December 2021 amounted to 125,883,498 euros (127,248,376 euros at 31 December 2020).

In 2021, the rental income from real estate investments belonging to the Company comes to 24,081,817 euros (20,007,677 euros in 2020). This figure includes income from the passing on of operating expenses for all related items, which amounted to 910,905 euros in 2021 (1,148,748 euros in 2020).

At year-end 2021, there was no kind of constraint on making new real estate investments, or on collecting the income arising from them or concerning the resources that could be obtained from a possible disposal.

At 2021 year-end, the Company had fully amortised property investments which were still in use amounting to 8,707,323 euros (8,634,042 euros at 2020 year-end).

The Company's policy is to take out insurance policies to cover the possible risks that may affect its real estate investments. At the end of 2021, there will be no shortfalls relating to any of the aforementioned risks.

7. Operating leases

At the end of 2021 and 2020, the Company had reached agreements with lessees on the following minimal rental instalments in accordance with prevailing agreements, without taking into account the passing on of condominium expenses, future increases in the CPI or any rent reviews agreed upon in their contracts.

The most significant operating leases stem from lease agreements on the real estate assets on which their operations are based. A breakdown of such minimum rental instalments is set out below:

	Euros

The Company generates a cash surplus from current operations arising from its main activity, as set forth in the corporate purpose. As a result of this, the Company has reached several financing agreements in this regard with related parties under market conditions (See Note 19.2) in order to take maximum advantage of its positive cash flows. The amounts loaned under these financing agreements to Group and associate companies are booked under the "Short-term investments in Group and associate companies" item of assets. At 31 December 2021, there were no debit balances to this end (2,450,366 euros at 31 December 2020), rather there was a credit balance for the sum of 38,400 euros (0 euros at 31 December 2020).

The movement in the "Loans to related companies", "Other financial assets" and the "Equity instruments" items during 2021 and 2020 is as follows:

Loans to associated companies

The change in the "Loans to associated companies" caption relates to the changes in the Company's cash pooling account with Promociones y Construcciones, PYC, Pryconsa, S.A., the balance of which at year-end amounted to 0 euros (2,450,366 euros as of 31 December 2020) within this financing scheme for related companies.

Assets at fair value through profit or loss

Equity instruments available for trading

In 2019 the Company purchased 6,950 shares in the listed company Unibal Rodamco, for a total acquisition cost of 1,002,786 euros, which were recognised under "Short-term equity instruments". At 31 December 2021, the Company valued these shares, obtaining a negative value adjustment of 20,572 euros, which was recognised under "Results of trading portfolio" at 31 December 2021 (negative value of 528,687 euros in

2020).

In 2020, the Company purchased 1,572,296 shares in the listed company Inmobiliaria Colonial SOCIMI, S.A., for a total acquisition cost of 11,548,536 euros, which were recorded under "Short-term equity instruments". At 31 December 2021 the Company valued these shares, obtaining a positive value adjustment of 361,628 euros, which was recognised under "Results of trading portfolio" at 31 December 2021 (positive value of 1,061,278 euros in 2020).

During 2021, the Company received dividends associated with these financial investments for the sum of 345,905 euros (228,099 euros in 2020). This income is recognised in the Company's income statement under "Third-party financial income".

The change in fair value, during the year and accumulated since its designation, is shown below:

Financial assets at fair value through profit and loss	Euros

10. Cash and cash equivalents

The balance stated under "Cash" primarily corresponds to the balance available in current accounts on 31 December 2021 and 2020. The availability of these balances is subject to no restrictions and they accrue interest at market rates.

11. Information on the nature of financial instruments and their level of risk

The management of the Company's financial risks is centralised in the Group's Financial Management and PER 32 Group policies, which has established the necessary mechanisms to control exposure to changes in exchange rates, along with credit and liquidity risks. The main financial risks which impact the Company are set out below:

a) Credit risk

The Company's main financial assets are cash flow and cash balances, trade creditors and other accounts receivable in investments. These account for the Company's maximum exposure to credit risk as regards financial assets. The Company's credit risk is mainly attributable to its trade debts, which are shown net of any provisions for insolvencies estimated on the basis of prior years' experience and their valuation under the current economic climate. The Company loans its excess liquidity to related companies which are very solvent, thereby guaranteeing the repayment of the funds thus loaned.

b) Liquidity risk

Taking into account the current situation of the financial market and the estimates made by the Directors of the Company on the Company's cash generating capacity, the Directors believe that the Company has enough capacity to obtain financing from third parties were it necessary to make new investments. Consequently, there is no evidence that the Company will encounter liquidity problems in the medium term. Liquidity is guaranteed by the nature of the investments made and lessees' high credit ratings, as well as by the collection guarantees set forth in prevailing agreements.

c) Exchange rate risk

As regards the Company's exchange rate risk at 31 December 2021, it did not have any assets or liabilities in foreign currencies. Hence, there is no risk in this regard.

d) Interest rate risk

The Company has two long-term loans financing mainly long-term assets, as well as short-term working capital financing facilities. The risk of interest rate fluctuations is very low since the Company is not highly exposed to debt. The Company's policy on interest rates consists of not taking out interest rate hedges through hedging financial instruments, swaps, etc. since any change in interest rates would have an insignificant effect on the Company's results, taking into account its low debt levels and today's very low interest rates.

However, on 17 February 2017, the Company arranged an interest rate swap for 8,550,000 euros, which will be valid from 1 April 2019 to 1 April 2026 and linked to a mortgage loan of 11,400,000 euros taken out in 2017 on the property located in calle José Abascal 41 in Madrid.

e) Real estate business risks

Changes in the economic situation at both local and international levels, occupation and employment growth rates, interest rates, tax legislation and consumer confidence have a significant impact on the real estate markets. Any unfavourable change in any of these or in other economic, demographic or social variables in Europe, and Spain in particular, could lead to a reduction in real estate activity in these countries. The cyclical nature of the economy has been statistically proven, as has the existence of microeconomic and macroeconomic aspects that directly or indirectly affect the way the property market performs, particularly the rentals which make up the Company's main investment activity.

Other market risks to which the Company is exposed include:

- **Regulatory risks**: the Company is bound to comply with several general and specific legal provisions in force (legal, accounting, environmental, employment, tax, data protection provisions, among others) which apply to it. Any regulatory changes that come about in the future may have a positive or negative effect on the Company.

- **Tourism risk**: a significant part of the Company's assets (mainly hotels) are connected to the tourism industry. Any drop in tourism activity in the cities where these hotels are located could have a negative effect on hotel use and occupancy. As a result, this could have a negative effect on the yield and performance of these assets if tenants renegotiate current lease agreements.

f) Risks associated with COVID-19

The appearance of the COVID-19 coronavirus in China in January 2020 and its spread across the world resulted in the World Health Organization declaring this outbreak a pandemic on 11 March 2020. On account of the COVID-19 pandemic, the Spanish government declared a State of Alarm on 15 March, which remained in place until 21 June. Furthermore, a range of different nationwide mobility restrictions were imposed that remain in place at present. This fact has significantly affected the global economy and, as a result, the Company’s operations and financial profit. The Company rolled out a contingency plan to alleviate the impact of the pandemic on profit insofar as possible.

This has resulted in the Company having to authorise deferrals or grace periods in contracts and payments with the tenants of leases, the effect of which has been partially offset through additional contracts for other assets.

Notwithstanding the foregoing, this fact has been taken into account by the directors of the Company and they do not believe there is any scenario in which this risk could significantly affect the value of the Company’s real estate assets or that the continuity of its activities could be jeopardised.

Finally, it is important to take into account that the Company is exposed to other risks: (i) environmental risks; (ii) occupational health and safety risks; and (iii) occupational hazard prevention risks.

12. Total equity and shareholders' equity

a) Authorised capital

At 31 December 2021, the Company's subscribed share capital was comprised of 4,452,197 registered shares at a par value of 60.10 euros each. All these shares belong to a single class and series and all have been fully subscribed and paid up, which means that the Company's notarised share capital amounts to 267,577,040 euros.

All the shares that make up the share capital have the same rights, there being no statutory restrictions on their transferability.

All the Company's shares have been admitted to trading on the Luxembourg Stock Exchange since 21 December 2011. The year-end share price, the average share price in the last quarter of the year and the average for 2021 were 74.50, 74.00 and 72.65 euros per share, respectively. The shares are registered shares and are represented by means of book entries. They are constituted as such by virtue of their registration in the corresponding accounting record.

The shareholders shall be subject to the obligations set forth in Articles 10 and comply with the REIT Act. Any shareholders whose interest in the entity's share capital is equivalent to or greater than five per cent and who receive dividends or a share-out of profits are obliged to give the company notice of the tax levy on the dividends received within ten days, counting from the date after the day they are received.

The companies holding an interest in the share capital equivalent to or greater than 10% at 31 December 2021 were as follows:

	Number of Shares	Percentage Interest
Promociones y Construcciones PYC Pryconsa, S.A.	498,360	11.19%
Cogein, S.L.U.	448,807	10.08%

b) Reserves

Legal reserve

According to the Consolidated Text of the Corporate Enterprises Act, a figure equivalent to 10% of the profit for the year has to be allocated to the legal reserve until the balance of this reserve reaches at least 20% of share capital. The legal reserve may be used to increase capital by using the proportion of its balance which exceeds 10% of the already increased capital.

Furthermore, pursuant to Law 11/2009 regulating real estate investment trusts (REITs), the legal reserve of companies that have chosen to apply the special tax regime established by this Law may not exceed 20% of their share capital. The articles of these companies may not establish any unavailable reserve other than the legal reserve.

With the exception of the aforementioned use, and whilst it does not exceed 20% of the share capital, this reserve may only be used to offset losses, and only when there are no other sufficient available reserves to do so.

At 31 December 2021, the legal reserve had not yet been fully allocated.

Voluntary reserve

Following the distribution of the Company's profit in 2020, the balance of this equity item came to 304,475 euros; this reserve unrestricted.

Merger reserve

As a result of the merger operation carried out in 2016 set out in Note 1, in 2016 merger reserves of 14,154,739 euros were provided for, generated on account of the difference between the individual book values of the Absorbed Companies and the book values incorporated as part of the merger.

c) Interim dividend

As indicated in Note 4, on 29 December 2020, the Board of Directors at the Company approved the distribution of an interim dividend for 2020 of 1.57 euros gross per share, paid out on 29 December 2020, equivalent to a gross amount of 7,000,000 euros.

During 2021, no interim payment of dividends was received.

d) Distribution of profits

REITs are governed by the special tax regime set forth in Law 11/2009 of 26 October governing Listed Real Estate Investment Trusts, as amended by Law 16/2012 of 27 December. Once all the trading obligations that may correspond to them are fulfilled, such companies are obliged to distribute to their shareholders the profits obtained in the year in the form of dividends. Such distribution must be resolved as set out below within the six months following the end of each financial year:

a) 100% of the profit from dividends or profit-sharing distributed by the entities referred to in section 1, article 2 of this Law.

b) At least 50% of the profits arising from the transfer of the properties, shares or ownership interests referred to in section 1, article 2 of this Law, subsequent to expiry of the time limits referred to in section 3, article 3 of this Law, which are used for pursuit of the entities' principal corporate purpose. The rest of such profits must be reinvested in other properties or interests included under the corporate purpose within the three years following the date of transfer. Failing this, such profits must be fully distributed together with the profits, if any, from the year in which the reinvestment period ends. Should the elements subject to reinvestment be transferred before the maintenance period elapses, any profits from them must be fully distributed jointly with the profits, if any, of the financial year in which they have been transferred. The distribution obligation does not cover the proportion of profits, if any, charged to financial years in which the Company did not pay taxes under the special tax regime set forth by the aforementioned Act.

c) At least 80 per cent of the rest of the profits obtained.

Where the distribution of dividends is charged to the reserves from the profits of a year in which the special tax regime has been applied, the distribution of such dividends must necessarily fulfil the resolution referred to in the preceding paragraph.

The legal reserve of any companies which have opted to apply the special tax regime set forth in this Act may not exceed twenty per cent of their share capital. The articles of these companies may not establish any other unavailable reserve other than the legal reserve.

As indicated in Note 2, pursuant to Law 11/2021, of 9 July and Order HFP/1430/2021, of 20 December, the Company is subject to special taxation on undistributed profit by real estate investment trusts as part of corporation tax, in the self-assessment category, for tax years starting on or after 1 January 2021. The tax rate in force is 15% and is considered corporation tax payable.

e) Capital management

The Company is essentially financed with shareholders' equity. Only in the case of new investments may the Company make use of the credit markets to finance these acquisitions or obtain financing from related companies by taking out mortgage-backed loans and/or issuing fixed income financial instruments.

The Company has undertaken to distribute at least 80% of their distributable profits in the form of dividends to its shareholders pursuant to the existing legal obligation laid down by Law 11/2009, as amended by Law 16/2012.

f) Adjustments for changes in value

The breakdown and nature of other adjustments for changes in value is as follows:

	Euros	
	31/12/2021	31/12/2020
Hedging operations (Note 14)	283,008	440,811
Total	**283,008**	**440,811**

g) Capital grants

The activity in this heading during 2021 and 2020 is as follows:

2021

	Euros		
	31/12/2020	Applications	31/12/2021
Capital grants	1,041,490	-56,351	985,139

Total	**1,101,233**	**-59,743**	**1,041,490**

Due to the change in taxation pursuant to the amendment introduced by Law 16/2012 of 27 December to

Law 11/2009 regulating Listed Real Estate Investment Trusts on the Real Estate Market, the Company started to pay tax at the levy of 0%. Therefore, the Company has adjusted the tax effect or the deferred tax liability and included the gross amount in "Subsidies, donations and bequests" of the Company's equity.

These subsidies correspond to the subsidy granted by the Directorate-General of Regional Economic Incentives for the development of the area. At 31 December 2021, the following were yet to be taken to the statement of profit and loss:

- Subsidy granted by the Directorate-General of Regional Economic Incentives for the nominal amount of 1,550,000 euros (641,137 euros yet to be taken to the statement of profit and loss) corresponding to 10% of the investment made to build Hotel Iberostar Isla Canela in Ayamonte, Huelva.

- Subsidy granted by the Directorate-General of Regional Economic Incentives for the nominal amount of 1,106,000 euros (400,353 euros yet to be taken to the statement of profit and loss) corresponding to 10% of the investment made to build Hotel Playa Canela in Ayamonte, Huelva.

The aforementioned subsidies were transferred to the Absorbed Company, Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U. from Isla Canela, S.A. based on the partial division agreement which gave rise to the Absorbed Company, since all of them were allocated to the activity subject to the transfer. Taking into account that the partial division transaction mentioned above was performed with accounting effects as of 1 January 2009, the Absorbed Company has booked the subsidies thus transferred in income since then.

In 2021, an amount of 56,351 euros (59,743 euros in 2020) was registered under "Allocation of grants for non-financial and other assets" in the accompanying profit and loss account.

13. Current and non-current liabilities

The balances of the accounts in this item at the end of 2021 and 2020 are as follows:

	Euros	
	31/12/2021	**31/12/2020**
Bonds and debentures	-	2,000,000

Financial assets at amortised cost

Bonds and debentures

The "Bonds and Debentures" item covers the issuance of two sets of Fixed Income securities undertaken by the Company in 2016 as part of the "2015 Fixed Income Securities Issuance Programme", described in Note 1, for a combined amount of €10,000,000, the main characteristics of which were:

	2021 Uncovered Bonds	2022 Uncovered Bonds
Nominal amount	8,000,000	2,000,000
Issue date	23 June 2016	23 June 2016
Maturity date	23 June 2021	23 June 2022
Annual coupon	2.50%	2.50%
Coupon payment	Annual	Annual
APR of the issuer	2.72%	2.77%

Average APR of both issues for the issuer was 2.73% per annum. The two sets of securities issued have been traded on the Alternative Fixed Income Market "MARF" since 24 June 2016. The financial expenses resulting from the aforementioned issuances, accrued and pending maturity in 2021, totalled 26,165 euros (130,822 in 2020), recorded under "Financial expenses" in the attached profit and loss account.

The expenses incurred each year in connection with the issue, registration and maintenance of fixed-income securities programs are registered in the Company's income statement for each year, due to their immateriality. At 31 December 2021, these expenses amounted to 44,419 euros (33,634 euros in 2020). The only fees that have arisen through the Bond and Debenture Programme are those listed in the table above. There have been no placement costs or fees.

These financial liabilities, recognised under "Debits and payables", are measured at year-end at their amortised cost and their carrying value at 31 December 2021 reflects an acceptable approximate of their fair value.

During 2021, the Company responded to these obligations upon their maturity, for the sum of 8,000,000 euros.

Non-current and current bank borrowings

At 31 December 2021, the Company's bank borrowings came to 96,330,972 euros (87,227,294 euros at 31 December 2020).

The mortgage loans in force at 31 December 2021, for which the Company is liable, have the following characteristics:

			Euros

Total		**42,000,000**	**42,000,000**	

Additionally, the "Current bank borrowings" item includes two credit facilities: one taken out with Banca March, which matures on 15 November 2022 with a limit of 5,000,000 euros; and a second taken out with Bankinter, which matures on 14 July 2022 with a limit of 5,000,000 euros. From these credit facilities, a total of 3,305,677 euros had been drawn down at 31 December 2021. Furthermore, accrued and unpaid interest at 31 December 2021 came to 158,289 euros (199,601 euros at 31 December 2020).

The financial expenses arising from debts with credit institutions in 2021 amounted to 1,772,748 euros (1,680,965 euros in 2020) and are recorded in the "Financial expenses" item of the attached profit and loss account.

Loan interest rates are set on market terms linked to Euribor with a fixed spread, with the exception of the loan hedged with a hedge guarantee.

The "Bonds and deposits" item reflects the guarantees received from clients connected with the leases set out in Note 7.

The breakdown by due dates at 31 December 2021 is as follows:

14. Hedge instruments

The breakdown of derivative financial instruments at 2021 year-end is as follows:

	Classification	Type	Euros Outstanding balance	Maturity	Fair value Liability
Interest rate swap	Interest rate hedge	Variable to Fixed	8,550,000	01.04.2026	283,008

The breakdown of derivative financial instruments at 2020 year-end is as follows:

	Classification	Type	Euros Outstanding balance	Maturity	Fair value Liability
Interest rate swap	Interest rate hedge	Variable to Fixed	8,550,000	01.04.2026	440,811

On 17 February 2017, the Company entered into an Interest Rate Swap derivative financial instrument amounting to 8,550,000 euros, the term of which is from 1 April 2019 to 1 April 2026.

This financial instrument has had the following impact on the Company's equity, according to the valuation made:

- An equity reduction of 283,008 euros in 2021 (440,811 euros in 2020), which has been recorded in the Company's equity under the "Adjustments for changes in value" item.

The Company has complied with the requirements set out in Note 5.3.3 on registration and valuation standards to be able to classify the financial instruments detailed above as hedges.

15. Disclosure on supplier payment deferrals

Below is the information required by Additional Provision Three of Law 15/2010 of 5 July (modified under the Second Final Provision of Law 31/2014 of 3 December) prepared according to the Resolution of 29 January 2016, of the Institute of Accounting and Auditing, on the information to be included in the record of annual financial statements relating to the average period for payment to suppliers in commercial transactions.

	2021	2020
	Days	
Average payment period to suppliers	41.78	84.24
Ratio of paid transactions	44.27	85.97
Ratio of transactions pending payment	27.43	66.37
	Euros	
Total payments made	6,777,911	11,645,241
Total payments pending	1,174,472	1,124,242

Pursuant to the ICAC Resolution, to calculate the average payment period to suppliers, commercial transactions corresponding to the accrued delivery of goods or provision of services from the date on which Law 31/2014 of 3 December came into force, have been taken into consideration.

For the sole purpose of providing the information set out in the Resolution, suppliers are considered as trade creditors concerning debts with suppliers of goods or services, included in the "Suppliers" and "Sundry creditors" items of the current liabilities in the balance sheet.

The "average payment period to suppliers" is understood as the period of time that elapses from the delivery of goods or the provisions of services entrusted to the supplier and eventual payment of the operation.

The maximum legal payment period applicable to the Company in 2020 according to Law 3/2004, of 29 December, establishing measures to combat delinquency in commercial transactions, is 30 days from the date on which said Law was published to the present (unless any of the conditions established therein are fulfilled, allowing the maximum legal payment period to be extended to 60 days).

16. Guarantees undertaken with third parties

At 31 December 2021 and 31 December 2020, the Company had not granted any third-party guarantees.

17. Public administrations and tax situation

17.1. Current balances with Public Administrations

Temporary differences in 2021 that changed the pre-tax accounting profit amounted to 219,312 euros and corresponded to:

- Downward adjustment for the recovery of the depreciation allocation for non-deductible property investments pursuant to Law 16/2012, establishing that accounting depreciation of tangible and intangible fixed assets, in addition to property investments, were only deductible up to 70% of the depreciation that would have been fiscally deductible recovering, from 2015, on a 10-year straight-line basis, the amount of 216,824 euros.

- Upward adjustment for the impairment of property investments in 2021 in the amount of 492,932 euros.

- Downward adjustment as a consequence of the reversal of impairment on real estate investments amounting to 107,334 euros.

- In 2021, amortisation of the goodwill arising from the merger (see Note 1) in the year was recognised as a temporary difference amounting to 50,538 euros.

At the end of 2021, the Company has temporary differences pending allocation of 5,518,708 euros

(5,349,934 euros in 2020), for which the deferred tax asset has not been booked given that the levy applicable is 0%. Said temporary differences include the amount of adjusted depreciation in 2013 and 2014 pending deduction in the amount of 650,471 euros, in addition to the impairment of property investments in the amount of 4,868,237 euros.

At 31 December 2021, the Company had tax bases to be offset of 357,592 euros (357,592 euros at 31 December 2020).

At the end of 2021, there were no financial expenses that have not been deducted from the tax base for corporation tax.

Furthermore, at 31 December 2021, tax credits yet to be applied were recognised for the sum of 453 euros (5,364 euros at 31 December 2020).

Pursuant to Article 9.2 of Law 11/2009 of 26 October governing Listed Real Estate Investment Trusts, as amended by Law 16/2012 of 27 December, the tax self-assessment return has to be filed on the part of the period's tax base which proportionally corresponds to the dividend whose distribution has been resolved with regard to the profit obtained in the year. As indicated in Note 4, at 2021 year-end the directors proposed to the shareholders to pay dividends of 15,148,123 euros (8,499,697 euros in 2020) and, accordingly, corporation tax was payable on this dividend in the amount of 0 euros.

Furthermore, pursuant to Article 6 of Law 11/2009 of 26 October, amended by Law 16/2012 of 27 December, the Company is obliged to distribute dividends equal to at least 50 percent of the profits resulting from the transfer of the real estate assets and shares or interests referred to in paragraph 1, Article 2 of said Law which are carried out once the periods referred to in paragraph 3, Article 3 of this Law have elapsed and which are allocated to fulfilling its main corporate purpose. The rest of such profits must be reinvested in other properties or interests included under the corporate purpose within the three years following the date of transfer. Failing this, such profits must be fully distributed together with the profits, if any, from the year in which the reinvestment period ends. If the elements subject to reinvestment are transferred before the maintenance period established in paragraph 3, article 3 of this Act elapses, those profits must be fully distributed together with the profits, if any, from the year in which they have been transferred.

To this end, in 2021 the Company recognised income on the sale of real estate assets for the sum of 9,549,341 euros following the sale of the Daganzo industrial property (8,988,341 euros of net profit following the allocation of transaction costs incurred as part of the sale of the property). During 2021, more than 50% of the profit obtained on said sale was reinvested in real estate assets, meaning that the reinvestment requirement indicated above has been complied with.

Corporation tax expenditure

Following the application of Law 11/2021, of 9 July and Order HFP/1430/2021, of 20 December approving the “special taxation on undistributed profit by real estate investment trusts” as part of corporation tax in the self-assessment category, the Company has not set aside provisions for corporation tax until the Company's General Shareholders Meeting approves the distribution of profit for 2021.

17.4. Years open for review and tax audits

In accordance with prevailing legislation in Spain, taxes cannot be considered to have been definitively settled until the returns filed have been inspected by the tax authorities or until the four-year statute of limitations period has elapsed. At year-end 2021, the Company's taxes corresponding to the last four years remained open to inspection. The Directors of the Company consider that the settlements of the above-mentioned taxes have been properly filed. Hence, although discrepancies may arise regarding the tax treatment given to the operations due to the interpretation of prevailing regulations, any liabilities that may eventually result from them, should they come about, will not significantly affect the annual accounts attached hereto.

The main agreements currently in force which the Company has with related companies are as follows:

- On 30 April 2018, the Company signed a lease agreement for parking spaces with Promociones y Construcciones, PYC, Pryconsa, S.A., under which the latter leases 17 parking spaces to the Company located in the building at Glorieta de Cuatro Caminos, 6 and 7, Madrid. The contract term is for five years, starting on 1 May 2018, extendable for five-year periods unless expressly agreed by the parties.

- On 28 April 2017, the Company entered into a technical service provision agreement with Promociones y Construcciones PYC Pryconsa, S.A., consisting of (i) technical assistance with the properties constructed by the latter and (ii) integrated project management of remodelling, refurbishment or adaptation works to properties owned by the Company, in exchange for remuneration of 5% calculated using the value of the works performed under the aforementioned contract.

- On 11 June 2014, the Company entered into a service provision agreement with Promociones y Construcciones, PYC, Pryconsa, S.A., whereby the latter would provide the Company with an integrated management assistance service for legal, administrative and tax services, in addition to granting the use of space. The contact's term runs for one year and can be extended unless contested by the parties.

As a result of the mergers set out in Note 1, all obligations and rights deriving from the following agreements between Promociones y Construcciones PYC Pryconsa, S.A. and Isla Canela, S.A were transferred to the Company:

- The Company is subrogated to the financing agreement signed in 2010 between Promociones y Construcciones, PYC, Pryconsa, S.A. and the Absorbed Companies, as part of which they would mutually finance one another, under market conditions, using the excess liquidity generated as a result of their operations provided that their own financing needs were satisfied. The agreement is for a term is of three years and it may automatically be renewed for three-year terms.

- On 1 January 2010, Isla Canela, S.A. and Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U. entered into a "Service Provision Agreement with Mortgage Guarantee", by means of which the latter provides the former with the mortgage guarantee service whereby the hotels owned by the latter respond for repayment by the former of the mortgage-backed loans taken out from the institutions in accordance with the arrangements agreed upon in their deeds of incorporation until each of the mortgage-backed loans entered into is definitively redeemed. Isla Canela, S.A. undertakes to pay any depreciation instalments and ancillary costs that may arise punctually until the loans guaranteed with a mortgage are redeemed. This contract must remain in force in 2021 as a result of the total repayment of the mortgage debt under the contract.

- On 1 June 2012, Isla Canela S.A. and Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U. entered into a technical services provision agreement for the maintenance of the hotels owned by Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U. Pursuant to the aforementioned agreement, Isla Canela, S.A. provides the Company with an integrated preventive maintenance service for the hotels owned by the Company in Isla Canela. The agreement is annual but may be tacitly extended by the parties on an annual basis, although either of the parties may terminate it at any time.

  Additionally, the aforementioned technical services contract establishes that Isla Canela, S.A. provides the Company with the full project management service for remodelling, renovating or adaptation works which may be necessary on the hotels owned by the Company in Isla Canela.

- On 31 December 2012, Isla Canela S.A. and Compañía Ibérica de Bienes Raíces 2009, SOCIMI, S.A.U. signed a hotel property lease agreement (for Hotel Isla Canela Golf). The contract is renewed on a three-year basis with the current maturity date of 31 December 2023.

25. International Financial Reporting Standards

Pursuant to Article 525 of the Corporate Enterprises Act, companies that have issued securities which are traded on a regulated market in any Member State of the European Union, in terms of Article 1.13 of Directive 93/22/EEC of the Council, of 10 May 1993, concerning investment services in the scope of traded securities and which, pursuant to the regulations in force, only publish separate financial statements, shall be obliged to state the main variations in shareholders' equity in the notes to the financial statements and in the profit and loss account, when applying the International Financial Reporting Standards adopted by the European Union (hereinafter, "the IFRS-EU").

Having applied the General Accounting Plan approved under Royal Decree 1514/2007, of 16 November, amended by Royal Decree 1159/2010, amended in 2016 by Royal Decree 602/2016 and amended by Royal Decree 1/2021 of 12 January, to the Company's operations, there are no significant differences between said rule and the IFRS-EU, with the exception of the inclusion of capital grants, net of their corresponding tax effect, in the Company's net equity.

At the end of 2021 and 2020, the Company does not have any lease agreements in force under which it acts as a lessee (operating lease) and therefore IFRS 16 does not apply to the recognition of a right to use the asset and a liability for the lease.

Furthermore, the amendments to IFRS 16 “Leases: COVID-19 Related Rent Concessions beyond 30 June 2021”, which applies on a mandatory basis from 1 April 2021 onwards, does not have any impact on the Company’s equity and profit.

26. Subsequent disclosures

From 31 December 2021 until the date of preparation of the Company's financial statements for 2021, no relevant events have occurred that need to be specified in this section.

Furthermore, and in parallel, the Company has reached an agreement with a top-tier operator to occupy the entire building once the demolition work, structural improvements and general renovation of installations, in addition to others, are complete. These works are expected to be completed in the final quarter of 2022.

- In November, the acquisition of a shopping centre located at Avenida de la Victoria 2, in Madrid known under the commercial name Centro Comercial Sexta Avenida with a gross leasable area (GLA) of 16,870 m2 and 423 outdoor parking spaces was completed.

- Registrations have been made in relation to ongoing constructions for the sum of 2,937,756 euros corresponding mainly to the costs of refurbishing Hotel Innside Meliá Gran Vía in Madrid in addition to other refurbishments made in to the recently acquired buildings at Calle Arapiles 14 and Calle Pradillo 42, both in Madrid.

- Furthermore, the Company has incurred in costs of 770,687 euros, capitalised as the cost of property investment.

Disposals: Property write downs for the gross amount of 14,452,531 euros were undertaken. The main write downs in 2021 correspond to:

- Sales of several properties and the corresponding annexes in Vallecas Comercial I (1 unit) and Coslada III (3 units) for the gross cost of 729,718 euros, sold to third parties. These sales transactions gave rise to a combined net loss of 26,722 euros, which was recognised under "Impairment and gains or losses on disposals of non-current assets" in the profit and loss account at 31 December 2021.

- November saw the sale of Urban Plot number 1 as part of the reparcelisation project “UE 14” of the Daganzo subsidiary rules entered in Property Register number 2 of Torrejón de Ardoz (Madrid) under estate number 9,645 and the industrial building located on this plot at Calle Ramón y Cajal, 45, Daganzo de Arriba (Madrid), resulting in their derecognition for a gross book value of 13,722,813 euros. This divestment gave rise to a net gain of 9,549,341 euros, which was recognised under "Impairment and gains or losses on disposals of non-current assets" in the profit and loss account at 31 December 2021. The commercial costs of this sale came to 561,000 euros, recognised under the independent professional services heading in the company's operating costs for 2021. However, for the purposes of taxation as regards calculating the dividend to be distributed, this commercial cost has been allocated as a reduction in the profit on the sale of real estate assets, bringing the net profit to 8,988,341 euros.

Transfers: During the year, ongoing real-estate investments have been transferred to property investments for the sum of 3,413,344 euros (11,884,126 euros in 2020), as a result of the completion of refurbishment work at Hotel Innside Meliá Gran Vía.

The "Bonds and Debentures" item covers the issuance of two sets of Fixed Income securities undertaken by the Company in 2016 as part of the "2015 Fixed Income Securities Issuance Programme", for a combined amount of 10,000,000 euros.

Average APR of both issues for the issuer was 2.73% per annum. The two sets of securities issued have been traded on the Alternative Fixed Income Market "MARF" since 24 June 2016. The financial expenses resulting from the aforementioned issuances, accrued and pending maturity in 2021, totalled 26,165 euros (130,822 in 2020), recorded under "Financial expenses" in the attached profit and loss account.

The expenses incurred each year in connection with the issue, registration and maintenance of fixed-income securities programs are registered in the Company's income statement for each year, due to their immateriality. At 31 December 2021, these expenses amounted to 44,419 euros (33,634 euros in 2020). The only fees that have arisen through the Bond and Debenture Programme are those listed in the table above. There have been no placement costs or fees.

At 31 December 2021, the Company had a mortgage debt of 50,867,006 euros pending maturity (54,016,448 euros at 31 December 2020) recorded under the "Long-term debts with credit institutions" and "Short-term debts with credit institutions" items and correspond mainly to mortgage-backed loans taken out with several financial institutions, which, at 31 December 2021, are pending maturity and repayment.

The Company's LTV at 31 December 2021 was 15.41% (16.48% at year-end 2020).

Income: At 31 December 2021, the Company had obtained total income of 24,120,213 euros (20,016,215 euros at 31 December 2020). The breakdown of income per asset type is as follows:

	Euros		Variation in %	
				Like for Like
	31/12/2021	31/12/2020	Growth	Growth
Hotels	6,406,676	4,315,824	48.45%	48.45%

Lease income increased by 21% year on year (21% when disregarding the effect of investments and disposals during the year).

The most significant operating leases stem from lease agreements on the real estate assets on which their operations are based. A breakdown of such minimum rental instalments is set out below:

	Euros	
	Nominal value	
	31/12/2021	31/12/2020
Less than a year	25,769,308	26,023,053
Between one and five years	80,884,702	70,503,577
More than five years	122,805,156	52,028,968
Total	**229,459,166**	**148,555,598**

The leasing portfolio at the end of 2021 increased by 80,903,568 euros against the end of 2020, up 54% year-on-year. This increase can be attributed to the materialisation of lease agreements involving new assets acquired by the Company in 2021 (building at Calle Arapiles 14 and the Sexta Avenida shopping centre, both located in Madrid) in addition to the impact of future lease contracts and agreements corresponding to the development of plot TER.02-178-A (José Antonio Fernández Ordóñez 55 in Valdebebas).

In relation to the average duration of the leases per type of property, the WAULT (Weighted average unexpired lease term) are detailed below:

	WAULT

Profit/(loss) on disposal of real estate assets: During 2021, the following divestments were recorded:

- Sales of several properties and the corresponding annexes in Vallecas Comercial I (1 unit) and Coslada III (3 units) for the gross cost of 729,718 euros, sold to third parties. These sale transactions generated a combined loss of 26,722 euros.

- November saw the sale of Urban Plot number 1 as part of the reparcelisation project “UE 14” of the Daganzo subsidiary rules entered in Property Register number 2 of Torrejón de Ardoz (Madrid) under estate number 9,645 and the industrial building located on this plot at Calle Ramón y Cajal, 45, Daganzo de Arriba (Madrid), resulting in their derecognition for a gross book value of 13,722,813 euros. The divestment generated gross profit of 9,549,341 euros (8,988,341 euros net of commercial costs).

At 31 December 2021, **EBT** is positive and amounts to 21,824,771 euros (9,444,108 euros in December 2020), i.e. a 131% increase year-on-year.

Net profit/(loss): At 31 December 2021, net profit of 21,824,771 euros (9,444,108 euros at 31 December 2020), representing a net profit per share of 4.90 euros (2.12 euros at December 2020), i.e. a 131% increase year-on-year.

2. Valuation of real estate assets

The Company commissioned Jones Lang Lasalle, an independent expert, to conduct a valuation of its assets, which was issued on 25 January 2022, in order to determine the fair values of all its property investments at year-end. Such valuations were conducted on the basis of the market lease value (which consists of capitalising net rents from each property and updating future flows). Acceptable discount rates were used to calculate fair value for a potential investor, which are in keeping with those used by the market for properties having similar characteristics and locations. The valuations were made in accordance with the Appraisal and Valuation Standards published by the United Kingdom's Royal Institute of Chartered Surveyors (RICS).

Said valuations generated a net loss in the Company's income statement at 31 December 2021 amounting to 385,598 euros (184,777 euros in 2020).

Furthermore, based on the valuations performed, the fair value of property investments shows an unrecognised gain (by comparison between the gross updated market fair value and the net carrying value) of 222,711,026 euros (191,763,275 euros at 31 December 2020).

The gross market value of property investment at 2021 year-end amounted to 619,668,431 euros (563,203,443 euros at 2020 year-end). The breakdown by business segment is as follows:

	Gross market value of the Property investments (Euros) (*)	
	31/12/2021	**31/12/2020**
Hotels	147,040,000	142,268,491

(*) The net market value at 31 December 2021 comes to 601,220,000 euros.

3. Segmented reporting

The Company identifies its operating segments based on internal reports which are the bases for regular reviews, discussion and assessment by the Directors of the Company, since they are the highest decision-making authority with the power to allocate resources to the segments and assess their performance.

The segments identified in this way in 2021 are as follows:

- Hotels
- Offices
- Retail
- Industrial
- Others

The segment reporting shown below is based on the monthly reports drawn up by Management and is generated by the same computer application used to obtain all the Company's accounting data. In this regard, the Company does not report its assets and liabilities in a segmented way, since this information is not required by the Company's Management for the purposes of the management reports it uses for its decision making.

Ordinary income corresponds to income directly attributable to the segment plus a relevant proportion of the Company's general income that can be attributed to it using fair rules of distribution.

Segment expenses are calculated as the directly attributable expenses incurred in the operating activities, plus the corresponding proportion of the expenses that can be reasonably allocated to the segment.

Total	**166,732**	**92.33%**	**157,364**	**92.58%**

During 2021, the occupancy rate of properties was maintained compared to the rate recorded at 31 December 2020.

4. Property Investment

Due to the recent reduction in expected yields in prime areas, the Company is seeking new diversified medium and long-term investment opportunities that would allow it to combine high yields in sectors where it is not currently present with yields of around 5% and 6% and top-quality tenants, as well as some added value real estate asset transformation operations for subsequent operation under a leasing scheme. The Company will maintain the income it currently expects to obtain from the lease agreements that are now in force.

In view of the Company's activity with long-term rental property assets, the Directors' forecasts are positive given the long-term agreements with top-level tenants in both the hotel and office, retail and industrial sectors, which guarantee the medium-term viability of the Company, together with new retail property lease contracts with tenants with good credit ratings.

5. Disclosure on supplier payment deferrals

Below is the information required by Additional Provision Three of Law 15/2010 of 5 July (modified under the Second Final Provision of Law 31/2014 of 3 December) prepared according to the Resolution of 29 January 2016, of the Institute of Accounting and Auditing, on the information to be included in the record of annual financial statements relating to the average period for payment to suppliers in commercial transactions.

Average payment period to suppliers	41.78	84.24
Ratio of paid transactions	44.27	85.97
Ratio of transactions pending payment	27.43	66.37
	Euros	
Total payments made	6,777,911	11,645,241
Total payments pending	1,174,472	1,124,242

Pursuant to the ICAC Resolution, to calculate the average payment period to suppliers, commercial transactions corresponding to the accrued delivery of goods or provision of services from the date on which Law 31/2014 of 3 December came into force, have been taken into consideration.

For the sole purpose of providing the information set out in the Resolution, suppliers are considered as trade creditors concerning debts with suppliers of goods or services, included in the "Suppliers" and "Sundry creditors" items of the current liabilities in the balance sheet.

The "average payment period to suppliers" is understood as the period of time that elapses from the delivery of goods or the provisions of services entrusted to the supplier and eventual payment of the operation.

The maximum legal payment period applicable to the Company in 2020 according to Law 3/2004, of 29 December, establishing measures to combat delinquency in commercial transactions, is 30 days from the date on which said Law was published to the present (unless any of the conditions established therein are fulfilled, allowing the maximum legal payment period to be extended to 60 days).

6. Earnings per share

The breakdown of the Company's earnings per share is as follows:

	Euros	
	31/12/2021	31/12/2020
Net profit	21,824,771	9,444,108
Weighted average number of shares	4,452,197	4,452,197
Earnings per share	**4.90**	**2.12**

Basic earnings per share are calculated as the sum of net profit for the period attributable to the Company and the weighted average number of common shares in circulation during the period.

In turn, diluted earnings per share are calculated as the sum of net profit/losses for the period attributable to ordinary shareholders, adjusted based on the effect attributable to potential common shares with a dilutive effect and the weighted average number of common shares in circulation during the period, adjusted based on the weighted average number of common shares that would be issued if all potential common shares were converted into common shares in the company. To this end, it is considered that the conversion takes place at the start of the period or at the time potential common shares are issued, if they have been put into circulation during the period in question.

At the end of 2021 and 2020, the basic and diluted earnings per share matched.

The dividend per share breakdown is as follows:

	Euros	
	2021	2020
Gross dividend paid out to shareholders (*)	15,148,123	8,499,697
Gross interim dividend	-	7,000,000
Gross dividend per share	3.40	1.91
Gross interim dividend per share	-	1.57
Gross final dividend per share	-	0.34
Gross return on average share price in the year	4.68%	2.71%
Gross return on nominal value	5.66%	3.18%

(*) For each year to be paid the following year (with the exception of the interim dividend)

7. Acquisition of treasury shares

At 31 December 2021, the Company did not hold any treasury shares in its portfolio.

8. Research and development activities

The company does not undertake any research and development activities.

9. Main risks to the Company

The management of the Company's financial risks is centralised in the Group's Financial Management and in Grupo PER 32 policies. The Group has established the necessary mechanisms to control exposure to changes in exchange rates, along with credit and liquidity risks. The main financial risks which impact the Company are set out below:

a) Credit risk

The Company's main financial assets are cash flow and cash balances, trade creditors and other accounts receivable in investments. These account for the Company's maximum exposure to credit risk as regards financial assets. The Company's credit risk is mainly attributable to its trade debts, which are shown net of any provisions for insolvencies estimated on the basis of prior years' experience and their valuation under the current economic climate. The Company loans its excess liquidity to related companies which are very solvent, thereby guaranteeing the repayment of the funds thus loaned.

b) Liquidity risk

Taking into account the current situation of the financial market and the estimates made by the Directors of the Company on the Company's cash generating capacity, the Directors believe that the Company has enough capacity to obtain financing from third parties were it necessary to make new investments. Consequently, there is no evidence that the Company will encounter liquidity problems in the medium term. Liquidity is guaranteed by the nature of the investments made and lessees' high credit ratings, as well as by the collection guarantees set forth in prevailing agreements.

c) Exchange rate risk

As regards the Company's exchange rate risk at 31 December 2021, it did not have any assets or liabilities in foreign currencies. Hence, there is no risk in this regard.

d) Interest rate risk

The Company has two long-term loans financing mainly long-term assets, as well as short-term working capital financing facilities. The risk of interest rate fluctuations is very low since the Company is not highly exposed to debt. The Company's policy on interest rates consists of not taking out interest rate hedges through hedging financial instruments, swaps, etc. since any change in interest rates would have an insignificant effect on the Company's results, taking into account its low debt levels and today's very low interest rates.

However, on 17 February 2017, the Company arranged an interest rate swap for 8,550,000 euros, which will be valid from 1 April 2019 to 1 April 2026 and linked to a mortgage loan of 11,400,000 euros taken out in 2017 on the property located in calle José Abascal 41 in Madrid.

e) Real estate business risks

Changes in the economic situation at both local and international levels, occupation and employment growth rates, interest rates, tax legislation and consumer confidence have a significant impact on the real estate markets. Any unfavourable change in any of these or in other economic, demographic or social variables in Europe, and Spain in particular, could lead to a reduction in real estate activity in these countries. The cyclical nature of the economy has been statistically proven, as has the existence of microeconomic and macroeconomic aspects that directly or indirectly affect the way the property market performs, particularly the rentals which make up the Company's main investment activity.

Other market risks to which the Company is exposed include:

- **Regulatory risks**: the Company is bound to comply with several general and specific legal provisions in force (legal, accounting, environmental, employment, tax, data protection provisions, among others) which apply to it. Any regulatory changes that come about in the future may have a positive or negative effect on the Company.

- **Tourism risk**: a significant part of the Company's assets (mainly hotels) are connected to the tourism industry. Any drop in tourism activity in the cities where these hotels are located could have a negative effect on hotel use and occupancy. As a result, this could have a negative effect on the yield and performance of these assets if tenants renegotiate current lease agreements.

f) Risks associated with COVID-19

The appearance of the COVID-19 coronavirus in China in January 2020 and its spread across the world resulted in the World Health Organization declaring this outbreak a pandemic on 11 March 2020. On account of the COVID-19 pandemic, the Spanish government declared a State of Alarm on 15 March, which remained in place until 21 June. Furthermore, a range of different nationwide mobility restrictions were imposed that remain in place at present. This fact has significantly affected the global economy and, as a result, the Company’s operations and financial profit. The Company rolled out a contingency plan to alleviate the impact of the pandemic on profit insofar as possible.

This has resulted in the Company having to authorise deferrals or grace periods in contracts and payments with the tenants of leases, the effect of which has been partially offset through additional contracts for other assets.

Notwithstanding the foregoing, this fact has been taken into account by the directors of the Company and they do not believe there is any scenario in which the continuity of its activities could be jeopardised.

Finally, it is important to take into account that the Company is exposed to other risks: (i) environmental risks; (ii) occupational health and safety risks; and (iii) occupational hazard prevention risks.

10. Outlook for 2022

Given the Company's activity, the Directors of the Company consider that 2022 will continue to be positive as regards the maintenance of long-term lease contract conditions. The forecasts are therefore positive, taking into account the long-term lease agreements with top-quality lessees in the hotel industry and in the office and retail sectors, which guarantee the business's viability in the medium and long-term, as well as the new retail outlet lease agreements with lessees having outstanding solvency ratings.

During 2022, the Company expects to embark on three major construction projects:

- Refurbishment of the office building located at Calle Arapiles 14 in Madrid
- Construction of a hotel and convention centre on plot TER.02-178-A (José Antonio Fernández Ordóñez 55 in Valdebebas, Madrid).
- Construction of a hospital on plot TER.02-178-A (José Antonio Fernández Ordóñez 55 in Valdebebas, Madrid).

While the refurbishment of the office building will take less than 9 months, and therefore, start to generate income as soon as the refurbishment work is compete and the building handed over to the tenant, the construction of properties on the plot in Valdebebas will take 24 months, meaning that the Company is currently in the process of designing the financial structure necessary that will make it possible to fund the construction of the three buildings.

11. Information on conflicts of interest among the Directors

At year-end 2021, neither the members of the Board of Directors of Saint Croix Holding Immobilier, SOCIMI, S.A. or the parties related to them, as laid down pursuant to the Corporate Enterprises Act, had reported to the other members the Board of Directors any direct or indirect conflict of interests with those of the Company.

12. Subsequent disclosures

From 31 December 2021 until the date of preparation of the Company's financial statements for 2021, no relevant events have occurred that need to be specified in this section.

13. Annual Corporate Governance Report
